[A Practical Guide to Managing the Multigenerational Workforce](#) Judith Lower, 2006 Bridge the generation communication gap. It's hard to believe. Almost three decades can separate your youngest staff members from the oldest. While the 20 something Generation Y nurses are concerning themselves with flexible scheduling and paid time off, their over 60 Traditional counterparts are light years away worrying about pension plans and professional recognition. In between you have to contend with Generation X staffers and Baby Boomers who are clamoring for an entirely different set of needs and priorities. Whatever you call them, Generation Y or Millennials, Traditionals or Silents, Generation X, Baby Boomers, managing your multigenerational staff can add up to a very gnarly problem. Don't let generation gaps lead to miscommunication and staff conflict. In order to manage a multigenerational workforce successfully, the nurse manager has to take into consideration each generation's unique priorities, motivators, skills, communication styles and experiences. That's a tall order for any manager, but especially in today's stressful hospital environment. Until now, help has been hard to find. Judith Lower, RN, CCRN, CNRN, MSN, a well-known and highly respected nursing expert, addresses the problem head-on in her new book, *A Practical Guide to Managing the Multigenerational Workforce: Skills for Nurse Managers*. Drawing on her many years of experience successfully managing across the generation gap, Lower's helpful new book will show you how to:

- Online Classroom Self-paced Hands on Discover different educational methods that appeal to multiple generations.

- Understanding your staff's needs will help you create schedules that work for all.
- Formulate retention strategies that work for every generation. Generation X nurses may respond best to promotions or pay increases. Baby Boomer nurses may be motivated by recognition and service.
