ICEL 2019 Sony Sukmawan,Ive Emaliana,Kundharu Saddhono,Muhammad Rohmadi,Chafit Ulya,Memet Sudaryanto, We are delighted to introduce the proceedings of the first edition of the 2019 International Conference on Advances in Education Humanities and Language ICEL The aim of ICEL International Conference on Advances in Humanities Education and Language is to provide a platform for researchers professionals academicians as well as industrial professionals from all over the world to present their research results and development activities in Education humanities and Language The theme of ICEL 2019 was Mainstreaming the Influences on Higher Order of Thinking Skills in Humanities Education and Language in Industrial Revolution 4.0 The technical program of ICEL 2019 consisted of 77 full papers including invited papers in oral presentation sessions at the main conference tracks Aside from the high quality technical paper presentations the technical program also featured six keynote speeches Hamamah Ph D Univeritas Brawijaya Indonesia Prof Dr Nuraihan binti Mat Daud UIIM Malaysia Dr Edith Dunn Conservator Cultural Specialist USA Prof Yoshihiko Sugimura university of Mizaki Japan Prof Park Yoonho Sunchon National University Korea and Prof Su Keh Bow Soochow University Taiwan We strongly believe that ICEL conference provides a good forum for all researchers developers and practitioners to discuss various advances that are relevant to education humanities and language We also expect that the future ICEL conference will be as successful and stimulating as indicated by the contributions presented in this volume **Chinese Journalists Turned YouTubers** Luwei

Rose Luqiu,Yinqiao Zhao,2026-02-24 Offering original insights into journalism s transformation in a politically complex multilingual region this book critically explores the rise of Chinese speaking journalists transitioning to YouTube This book considers how professional journalists adapt their practices to YouTube while navigating diverse media environments including mainland China s strict censorship Hong Kong s shifting political landscape and Taiwan s relative media freedom Key questions guiding this research include how journalists turned YouTubers define and perform their roles on an informal entertainment led platform how audiences perceive these roles and whether creators maintain journalistic quality in a platformed media ecosystem Through comparative case studies including contrasting cases from the West this book highlights the challenges of maintaining journalistic standards the sustainability of content production and the evolving journalist audience relationship in the digital age Chinese Journalists Turned YouTubers contributes to research at the intersection of journalism digital platforms and public discourse in a fragmented and globalized media environment

Universal Access in Human-Computer Interaction. Design Methods and User Experience Margherita

Antona, Constantine Stephanidis, 2021-07-03 This two volume set constitutes the refereed proceedings of the 15th International Conference on Universal Access in Human Computer Interaction UAHCI 2021 held as part of the 23rd International Conference HCI International 2021 held as a virtual event in July 2021 The total of 1276 papers and 241 posters included in the 39 HCII 2021 proceedings volumes was carefully reviewed and selected from 5222 submissions UAHCI 2021 includes a total of 84 papers they focus on topics related to universal access methods techniques and practices studies on accessibility design for all usability UX and technology acceptance emotion and behavior recognition for universal access accessible media access to learning and education as well universal access to virtual and intelligent assistive environments

The State of the Art in Student Engagement Carl Senior, 2015-07-10 There is an extensive literature conducted from a range of theoretical perspectives and methodologies on the role of groups and student learning in higher education However here the concept of the group is heavily contested at a theoretical level but within higher education practice characterizing the group has tended to be clear cut Groups of students are often formed within the parameters of specific educational programs to address explicitly defined learning objectives These groups are often small scale and achieve tasks through cooperative or collaborative learning Cooperative learning involves students dividing roles and responsibilities between group members so learning becomes an independent process and outcome On the other hand collaborative learning involves students working together by developing shared meanings and knowledge to solve a task or problem From this perspective learning is conceptualized as both a social process and individual outcome That is collaborative learning may facilitate individual student conceptual understanding and hence lead to higher academic achievement The empirical evidence is encouraging as has been shown that students working collaboratively tend to achieve higher grades than students working independently However the above perspectives on student engagement assume that groups are formed within the confines of formal learning environments e g lecture theaters involve students on the same degree program have the explicit function of achieving a learning task and disband once this has been achieved However students may also use existing social networks such as friendship groups as a mechanism for learning which may occur outside of formal learning environments There is an extensive literature on the role and benefits of friendship groups on student learning within primary and secondary education but there is a distinct lack of research within higher education This ebook is innovative and ambitious and will highlight and consolidate the current understanding of the role that student based engagement behaviors may serve in effective pedagogy A unique aspect of this research topic will be the fact that scholars will also be welcome to submit articles that describe the efficacy of the full range of approaches that have been employed to facilitate student engagement across the sector

World Regional Geography Without Subregions Lydia Mihelic

Pulsipher, Alex Pulsipher, Ola Johansson, 2020-02-24 Pulsipher's World Regional Geography shows the rich diversity of human life and demystifies global issues by representing the daily lives of men, women, and children in the various regions of our globe. The eighth edition continues to make these global issues accessible to students through a thematic framework, new learning outcomes, and new end-of-chapter support for students. Pulsipher's World Regional Geography is also available with subregions. 9781319206772 The Road Ahead United States. Congress. Senate. Committee on Commerce, Science, and Transportation, 2013 *The SAGE International Encyclopedia of Travel and Tourism* Linda L. Lowry, 2016-09-01 Taking a global and multidisciplinary approach, The SAGE International Encyclopedia of Travel and Tourism brings together a team of international scholars to examine the travel and tourism industry, which is expected to grow at an annual rate of four percent for the next decade. In more than 500 entries spanning four comprehensive volumes, the Encyclopedia examines the business of tourism around the world, paying particular attention to the social, economic, environmental, and policy issues at play. The book examines global, regional, national, and local issues, including transportation infrastructure, the environment, and business promotion. By looking at travel trends and countries, large and small, the Encyclopedia analyses a wide variety of challenges and opportunities facing the industry. In taking a comprehensive and global approach, the Encyclopedia approaches the field of travel and tourism through the numerous disciplines it reaches, including the traditional tourism administration curriculum within schools of business and management, economics, public policy, as well as social science disciplines such as the anthropology and sociology. Key features include: More than 500 entries authored and signed by key academics in the field. Entries on individual countries that detail the health of the tourism industry, policy, and planning approaches, promotion efforts, and primary tourism draws. Additional entries look at major cities and popular destinations. Coverage of travel trends such as culinary tourism, wine tourism, agritourism, ecotourism, geotourism, slow tourism, heritage and cultural-based tourism, sustainable tourism, and recreation-based tourism. Cross-references and further readings. A Reader's Guide grouping articles by disciplinary areas and broad themes. **The Deepest Map** Laura Trethewey, 2023-07-11 A SCIENCE NEWS MAGAZINE BEST BOOK OF 2023 A GLOBE AND MAIL BEST NONFICTION BOOK OF 2023 Should be required reading. A gripping and all too timely account of what, in more ways than one, is turning out to be a very costly and questionably necessary race to the bottom. Trethewey rises to the occasion here, relating in absorbing detail the ebb and flow of conflicting interests that tussle down among the vents and ridges of the hadal zone. It is all highly readable, and it is all deeply ominous. Simon Winchester New York Times Book Review The dramatic and action-packed story of the last mysterious place on earth, the world's seafloor, and the deep-sea divers, ocean mappers, marine biologists, entrepreneurs, and adventurers involved in the historic push to chart it, as well as the opportunities, challenges, and perils this exploration holds now and for the future. Five oceans: the Atlantic, the Pacific, the Indian, the Arctic, and the Southern cover approximately 70 percent of the earth. Yet we know little about what lies beneath them. By the early 2020s, less than twenty-five percent of the ocean's floor has been charted, most

close to shorelines and over three quarters of the ocean lies in what is called the Deep Sea depths below a thousand meters Now the race is on to completely map the ocean s floor by 2030 an epic project involving scientists investors militaries and private explorers who are cooperating and competing to get an accurate reading of this vast terrain and understand its contours and environment In *The Deepest Map* Laura Trethewey documents this race to the bottom following global efforts around the world from crowdsourcing to advances in technology recent scientific discoveries to tales of dangerous dives in untested and costly submersibles The lure of ocean exploration has attracted many including the likes of James Cameron Richard Branson Ray Dalio and Eric Schmidt *The Deepest Map* follows a cast of intriguing characters from early mappers such as Marie Tharp a woman working in the male dominated fields of oceanography and geology whose discoveries have added significantly to our knowledge Victor Vescovo a man obsessed with reaching the deepest depths of each of the five oceans and his young brilliant and fearless mapper Cassie Bongiovanni and the diverse entrepreneurs looking to explore and exploit this uncharted territory and its resources In *The Deepest Map* ocean discovery converges with humanity s origin story in mapping the ocean floor scientists are actively tracing our roots back to the most inhospitable places on earth where life began and flourished But for every conservationist looking to protect the seafloor there are others who see its commercial potential Will a new map exacerbate pollution and the degradation of this natural resource How will the race remake political power structures in years to come Trethewey probes these questions as countries and conglomerates wrestle over the riches that may lie at the bottom of the sea The future of humanity depends on our ability to protect this vast precious and often ignored resource A true tale of science nature technology and an extreme outdoor adventure *The Deepest Map* illuminates why we love and fear the earth s final frontier and is a crucial addition to the increasingly urgent conversation about climate change
