on his or her area of expertise Each of these sections contains their own pitfalls and traps It is more fruitful to study the tactics of an opening you might encounter as White or Black than to study the knight fork pin or skewer one tactic at a time When the type of tactic is provided with the puzzle it is already half solved Study the more common tactics found within an opening you face and you will come away with an understanding of the real dynamics of the opening and pick up tactics you can already use This is a collection of 436 chess puzzles culled from thousands of QGA miniatures where decisive positions are reached in 25 moves or less They are chosen only if there is only one winning move i e a move that results in a clear two pawn advantage or better Where there is a mate puzzle only one move by White or Black will result in a forced mate in that specific number of moves Solutions are found at the end of the book along with illustrative variations in italics All variations have been checked for accuracy and uniqueness by Houdini6 a grandmaster rated chess engine Each variation ends with 1 0 White wins Black resigns or 0 1 Black wins White resigns
