*Exhibiting Health* Jennifer Lisa Koslow,2020-09-18 In the early twentieth century public health reformers approached the task of ameliorating unsanitary conditions and preventing epidemic diseases with optimism Using exhibits they believed they could make systemic issues visual to masses of people Embedded within these visual displays were messages about individual action In some cases this meant changing hygienic practices In other situations this meant taking up action to inform public policy Reformers and officials hoped that exhibits would energize America s populace to invest in protecting the public s health *Exhibiting Health* is an analysis of the logic of the production and the consumption of this technique for popular public health education between 1900 and 1930 It examines the power and limits of using visual displays to support public health initiatives

Reinventing Licentiousness Y. Yvon Wang,2021-03-15 *Reinventing Licentiousness* navigates an overlooked history of representation during the transition from the Qing Empire to the Chinese Republic a time when older hierarchical notions of licentiousness were overlaid by a new pornographic regime Y Yvon Wang draws on previously untapped archives ranging from police archives and surveys to ephemeral texts and pictures to argue that pornography in China represents a unique configuration of power and desire that both reflects and shapes historical processes On the one hand since the late imperial period pornography has democratized pleasure in China and opened up new possibilities of imagining desire On the other ongoing controversies over its definition and control show how the regulatory ideas of premodern cultural politics and the popular products of early modern cultural markets have contoured the globalized world *Reinventing Licentiousness* emphasizes the material factors particularly at the grassroots level of consumption and trade that governed proper sexual desire and led to ideological shifts around the definition of pornography By linking the past to the present and beyond Wang s social and intellectual history showcases circulated pornographic material as a motor for cultural change The result is an astonishing foray into what historicizing pornography can mean for our understandings of desire legitimacy capitalism and culture

*Modern Photography* ,1989 Tumors of the Chest Konstantinos N. Syrigos,Christopher M. Nutting,C.
