**Screw Business As Usual** Richard Branson, 2011-12-08 RICHARD BRANSON one of the world s most famous and admired business leaders argues that it s time to turn capitalism upside down to shift our values from an exclusive focus on profit to also caring for people communities and the planet As he writes It s a vibrant and definite sea change from the way business was always done when

financial profit was a driving force Today people aren't afraid to say Screw business as usual and show they mean it It's amazing how I keep coming across the same message from bustling global cities to the townships of South Africa to small villages in India to G8 climate conferences It's no coincidence that so many people are talking about the same thing There's a real buzz in the air Change is happening People often associate me with challenges with trying to break records while sailing the Atlantic or flying in a jet stream in a balloon or going into space with Virgin Galactic But this book isn't just about fun and adventure and exceeding one's wildest dreams It's a different kind of business book It's about revolution My message is a simple one business as usual isn't working In fact business as usual is wrecking this planet Resources are being used up the air the sea the land are all heavily polluted The poor are getting poorer Many are dying of starvation or because they can't afford a dollar a day for lifesaving medicine But my message is not all doom and gloom I will describe how I think business can help fix things and create a more prosperous world for everyone I happen to believe in business because I believe that business is a force for good By that I mean that doing good is good for business Doing the right thing can be profitable I will show how this works step by step in the following pages It's the core message of this book I often say Have fun and the money will come I still believe that but now I am saying Do good have fun and the money will come **Tensile Trading**
