JG Myers

Comic Effects Interdisciplinary Approaches To Humor In Literature:

Comic Effects Paul Lewis, 1989-08-15 Lewis draws on both humor theories and research arguing for the development of interdisciplinary methodologies in the study of literary humor He demonstrates that the sociologist of humor and the comic playwright approach the same subject humor in and between groups with different tools that writers of Bildungsromane and developmental psychologists share a common interest in the role of humor in maturation and that the monsters that haunt the psyches of professional comedians can be useful in understanding the odd minglings of humor and fear in Gothic fiction His treatment of writers who differ widely in their use of humor suggests that the complexity and diversity of humor make it a richly variable determinant of character genre and writer *Humor in Contemporary Junior Literature* Julie Cross, 2010-12-14 In this new book Julie Cross examines the intricacies of textual humor in contemporary junior literature using the tools of literary criticism and humor theory Cross investigates the dialectical paradoxes of humor and debunks the common belief in oppositional binaries of simple versus complex humor The varied combinations of so called high and low forms of humor within junior texts for young readers who are at such a crucial stage of their reading and social development provide a valuable commentary upon the culture and values of contemporary western society making the book of considerable interest to scholars of both children s literature and childhood studies Cross explores the ways in which the changing content forms and functions of the many varied combinations of humor in junior texts including the Lemony Snickett series reveal societal attitudes towards young children and childhood The new compounds of seemingly paradoxical high and low forms of humor in texts for developing readers from the 1960s onwards reflect and contribute to contemporary society s hesitant and uneven acceptance of the emergent paradigm of children s rights abilities participation and empowerment Cross identifies four types of potentially subversive transgressive humor which have emerged since the 1960s which coupled with the three main theories of humor relief superiority and incongruity theories enables a long overdue charting of developments in humor within junior texts Cross also argues that the gradual increase in the compounding of the simple and the complex provide opportunities for young readers to play with ambiguous complicated ideas helping them embrace the complexities and contradictions of contemporary life [Humor, Resistance, and Jewish Cultural Persistence in the Book of Revelation](#) Sarah Emanuel, 2020-01-09 Positions Revelation within an ancient Jewish context and demonstrates how the author used humor to resist Roman power **Humour of Vladimir Nabokov** Paul Benedict Grant, 2024-09-30 Many critics classify Vladimir Nabokov as a highbrow humourist a refined wordsmith overly fond of playful puzzles and private in jokes whose art appeals primarily to an intellectually sophisticated readership This study presents a more balanced portrait placing equal emphasis on the broader earthier humour that is such a marked feature of Nabokov s writing which draws on the human body and all things physical for its laughs sex and scatology farce and slapstick Moving between the metaphysical and the physical the cosmic and the comic mind and matter it presents Nabokov as a writer at home in both

high and low forms of humour a comedian who is capable of producing as many belly laughs as brainteasers and of appealing to a much wider readership than is commonly supposed

Humour in the Arts Vivienne Westbrook, Shun-liang Chao, 2018-07-27 This collection demonstrates the usefulness of approaching texts verbal visual and aural through a framework of humour Contributors offer in depth discussions of humour in the West within a wider cultural historical context to achieve a coherent chronological sense of how humour proceeds from antiquity to modernity Reading humorously reveals the complexity of certain aspects of texts that other reading approaches have so far failed to reveal Humour in the Arts explores humour as a source of cultural formation that engages with ethical political and religious controversies whilst acquainting readers with a wide range of humorous structures and strategies used across Western cultures *Roald Dahl* Ann Alston, Catherine Butler, 2012-11-01 Roald Dahl is one of the world's best loved authors More than twenty years after his death his books are still highly popular with children and have inspired numerous feature films yet he remains a controversial figure This volume the first collection of academic essays ever to be devoted to Dahl's work brings together a team of well known scholars of children's literature to explore the man his books for children and his complex attitudes towards various key subjects Including essays on education crime Dahl's humour his long term collaboration with the artist Quentin Blake and film adaptations this fascinating collection offers a unique insight into the writer and his world *The Punk Turn in Comedy* Krista Bonello Rutter Giappone, 2018-05-24 This book examines the interconnections between punk and alternative comedy altcom It explores how punk's tendency towards humour and parody influenced the trajectory taken by altcom in the UK and the punk strategies introduced when altcom sought self definition against dominant established trends The Punk Turn in Comedy considers the early promise of punk comedy convergence in Peter Cook and Dudley Moore's Derek and Clive and discusses punk and altcom's attitudes towards dominant traditions The chapters demonstrate how punk and altcom sought a direct approach for critique one that rejected innuendo while embracing the amateur in style and experimenting with audience performer interaction Giappone argues that altcom tended to be more consistently politicised than punk with a renewed emphasis on responsibility The book is a timely exploration of the punk turn in comedy history and will speak to scholars of both comedy and punk studies *Selected Essays on the Humor of Lawrence Durrell* English Literary Studies, 1993

Reading Erskine Caldwell Robert L. McDonald, 2006-01-24 Erskine Caldwell has been compared to literary giants like Faulkner and Hemingway yet he has also been reviled as peddler of pop trash Was he a genius or just a shooting star whose brilliance faded long before he stopped writing Caldwell began his career in the late 1920s and gained fame for revealing the gritty backwoods South in novels such as his seminal Tobacco Road He wrote prolifically sometimes as much as a book a year As the editor of this book maintains perhaps anyone who wrote so much would inevitably stumble These 12 essays explore a variety of issues They discuss Caldwell as humorist social commentator modernist and revolutionary novelist They examine his themes and tropes political images social injustice the environment ideological

struggles and his use of artistic devices short stories cubist strategies repetition A generous bibliography includes not only books on Caldwell but also chapters and forewords journal articles essays news items and obituaries The reader is encouraged to look at Caldwell with fresh eyes to press beyond his controversial image and to compare his works especially his early ones to those of any of the top names in literature

Going West Reuven Kiperwasser,2021-11-05 This new book by Reuven Kiperwasser examines the social cultural and religious aspects of third to sixth century narratives involving rabbinic figures migrating between Babylonia and Palestine Kiperwasser draws on migration and mobility studies comparative literature humor and satire studies as well as social history to reveal how border crossing rabbis were seen as exporting features of their previous eastern context into their new western homes and vice versa Through their writing rabbinic authors articulated the nature and legitimacy of their own scholastic practices knowledge and authority in relationship to their internal others *Studies in American Humor* ,2000 **International Journal of Comic Art** ,2000

The Comical B. Dziemidok,1992-12-31 The book offers an extensive and detailed philosophical analysis of the phenomenon of the comic The author critically presents the hitherto existing theories of the comic from Aristotle up to the present and classifies them At the same time he advances his own definition of the comic as a broadly understood deviation from norm which takes into account the deviation from an objectively existing norm as well as the subjective sense of the normal Many pages have been devoted to the analysis of the main forms of the comic The author offers their taxonomy and discusses the major techniques of evoking the comic The final part of the book deals with the social aspects of the comic and discusses the social role of humour mockery satire irony etc The author elaborates on the educational integrating punitive and therapeutic aspects of various forms of comic activities The book is based upon ample material drawn from a multitude of sources The author does not limit the scope of his analysis to the philosophical and the aesthetic aspects of the comic but takes into account its extra aesthetic occurrences and applications as presented by psychologists cultural anthropologists sociologists theoreticians and historians of literature film and music which makes the work truly interdisciplinary in character The Comical A Philosophical Analysis will be useful to aestheticians and philosophers of art as well as to the students of literary criticism theatre and film studies educational theory psychology and even the theory of argumentation

POetic Effect and Cultural Discourses Hermann Josef Schnackertz,2003 This collection of essays by a group of scholars from Germany the United States Russia and the Czech Republic focuses on the relations of E A Poe s work to various forms of cultural discourse as well as on its intercultural and intermedial repercussions One of the central concerns of this conference volume is the question of how a cultural reading of Poe s literary fictions can account for their character as tales of effect The scope of investigation ranges from the cultural significance of animal representations and the aesthetic consequences of Poe s interest in mesmerism and scientific cosmologies to the uncovering of archeological strata in *The Gold Bug* the exploration of temperance rhetoric in *The Black Cat* and the engagement of the public private dichotomy in *The Pit and the Pendulum*

Furthermore the role of Beauty in Poe's aesthetic and the process of poetological self construction are discussed as well as the illustrations for the poem To Helen and finally the influence of Poe's writings on Russian symbolism Bisherige Forschungsgebiete des Autors Science and literature text and image literary theory **The Primer of Humor Research** Victor Raskin, 2008 The book is intended to provide a definitive view of the field of humor research for both beginning and established scholars in a variety of fields who are developing an interest in humor and need to familiarize themselves with the available body of knowledge Each chapter of the book is devoted to an important aspect of humor research or to a disciplinary approach to the field and each is written by the leading expert or emerging scholar in that area There are two primary motivations for the book The positive one is to collect and summarize the impressive body of knowledge accumulated in humor research in and around Humor The International Journal of Humor Research The negative motivation is to prevent the embarrassment to and from the first timers often established experts in their own field who venture into humor research without any notion that there already exists a body of knowledge they need to acquire before publishing anything on the subject unless they are in the business of reinventing the wheel and have serious doubts about its being round The organization of the book reflects the main groups of scholars participating in the increasingly popular and high powered humor research movement throughout the world an 800 to 1 000 strong contingent and growing The chapters are organized along the same lines History Research Issues Main Directions Current Situation Possible Future Bibliography and use the authors definitive credentials not to promote an individual view but rather to give the reader a good comprehensive and condensed view of the area The Concept of Black Humor and Edgar Hilsenrath's Novel Der Nazi und Der Friseur Astrid Klocke, 2000 **The Function of Humor in the Spanish Romances of Chivalry** Marie Cort Daniels, 1992 **From Decadent to Modernist**, 2007 Journal of American Culture, 1995 **Humor**, 2005
