Free Expression and Censorship in America Herbert N. Foerstel, 1997-04-22 Despite the end of the Cold War America's national security apparatus for controlling information has remained in place However sex and secularism are emerging as the major targets of censorship Federal decency standards have been imposed on art the broadcast media and the Internet Virtually every major political issue of the 1990s abortion campaign finance violence on TV homosexuality indecency on the Internet has First Amendment implications and all are included in this comprehensive encyclopedia This work covers the full history of America's struggle for free expression as well as the contemporary dynamics represented by pop figures like Frank Zappa Howard Stern and Danny Goldberg and politicians like Jesse Helms and Don Edwards It goes beyond other academic works of its kind by recognizing the primacy of the mass media and the Internet in defining the modern contours of the First Amendment

Journalism's Roving Eye John Maxwell Hamilton, 2011-08-15 In all of journalism nowhere are the stakes higher than in foreign news gathering For media owners it is the most difficult type of reporting to finance for editors the hardest to oversee Correspondents roaming large swaths of the planet must acquire expertise that home based reporters take for granted facility with the local language for instance or an understanding of local cultures Adding further to the challenges they must put news of the world in context for an audience with little experience and often limited interest in foreign affairs a task made all the more daunting because of the consequence to national security In *Journalism's Roving Eye* John Maxwell Hamilton a historian and former foreign correspondent provides a sweeping and definitive history of American foreign news reporting from its inception to the present day and chronicles the economic and technological advances that have influenced overseas coverage as well as the cavalcade of colorful personalities who shaped readers perceptions of the world across two centuries From the colonial era when newspaper printers hustled down to wharfs to collect mail and periodicals from incoming ships to the ongoing multimedia press coverage of the Iraq War Hamilton explores journalism s constant and not always successful efforts at dishing the foreign news as James Gordon Bennett put it in the mid nineteenth century to describe his approach in the *New York Herald* He details the highly partisan coverage of the French Revolution the early emergence of special correspondents and the challenges of organizing their efforts the profound impact of the non yellow press in the run up to the Spanish American War the increasingly sophisticated machinery of propaganda and censorship that surfaced during World War I and the golden age of foreign correspondence during the interwar period when outlets for foreign news swelled and a large number of experienced independent journalists circled the globe From the Nazis intimidation of reporters to the ways in which American popular opinion shaped coverage of Communist revolution and the Vietnam War Hamilton covers every aspect of delivering foreign news to American doorsteps Along the way Hamilton singles

out a fascinating cast of characters among them Victor Lawson the overlooked proprietor of the Chicago Daily News who pioneered the concept of a foreign news service geared to American interests Henry Morton Stanley one of the first reporters to generate news on his own with his 1871 expedition to East Africa to find Livingstone and Jack Belden a forgotten brooding figure who exemplified the best in combat reporting Hamilton details the experiences of correspondents editors owners publishers and network executives as well as the political leaders who made the news and the technicians who invented ways to transmit it Their stories bring the narrative to life in arresting detail and make this an indispensable book for anyone wanting to understand the evolution of foreign news gathering Amid the steep drop in the number of correspondents stationed abroad and the recent decline of the newspaper industry many fear that foreign reporting will soon no longer exist But as Hamilton shows in this magisterial work traditional correspondence survives alongside a new type of reporting Journalism s Roving Eye offers a keen understanding of the vicissitudes in foreign news an understanding imperative to better seeing what lies ahead

Figures of Speech William Turner,2011-08-24 Recounting controversial First Amendment cases from the Red Scare era to Citizens United William Bennett Turner a Berkeley law professor who has argued three cases before the Supreme Court shows how we ve arrived at our contemporary understanding of free speech His strange cast of heroes and villains some drawn from cases he has litigated

Fleisher,1995 As the incidence of violent crime rises in the United States so does the public demand for a solution But what will work Mark S Fleisher has spent years among inmates in jails and prisons and on the streets with thieves gang members addicts and life long criminals in Seattle and other cities across the country In Beggars and Thieves he writes about how and why they become and remain offenders and about the actual role of jails and prisons in efforts to deter crime and rehabilitate criminals Fleisher shows with wrenching firsthand accounts that parents who are addicts abusers and criminals beget irreversibly damaged children who become addicts abusers and criminals Further Fleisher contends that many well intentioned educational and vocational training programs are wasted because they are offered too late to help And he provides sobering evidence that many youthful and adult offenders find themselves better off in prison with work to do medical care a clean place to sleep regular meals and stable social ties than they are in America s cities Fleisher calls for anti crime policies that are bold practical and absolutely imperative He prescribes life terms for violent offenders but in prisons

structured as work communities where privileges are earned through work in expanded productive industries that reduce the financial burden of incarceration on the public But most important he argues that the only way to prevent street crime cut prison growth and reduce the waste of money and human lives is to permanently remove brutalized children from criminal addicted and violent parents
