Edwardians on Screen Katherine Byrne,2015-09-22 This book explores television's current fascination with the Edwardian era By exploring popular period dramas such as *Downton Abbey* it examines how the early twentieth century is represented on our screens and what these shows tell us about class gender and politics both past and present Reading Clausewitz Beatrice Heuser,2011-11-30 Clausewitz's *On War* first published in 1832 remains the most famous study of the nature and conditions of warfare Contemporaries found him endearing or totally unpalatable while later generations called him the father of modern strategic study whose tenets have eternal relevance or dismissed him as outdated Was it really he who made the discovery that warfare is a continuation of politics Was he the Mahdi of mass and mutual massacre in part responsible for the mass slaughter of the First World War as Liddell Hart contended Can the idea of total war be traced back to him Complex and often misunderstood Clausewitz has fascinated and influenced generations of politicians and strategic thinkers Beatrice Heuser's study is the first book not only on how to read Clausewitz but also on how others have read him from the Prussian and German masters of warfare of the late nineteenth century through to the military commanders of the First World War through Lenin and Mao Zedong to strategists in the nuclear age and of guerrilla warfare The result is an accessible and comprehensive introduction to the work and influence of the greatest classic on the art of war **1914: the Coming of the First World War** Walter Laqueur,1964 *Sharing the Sacred* Anna Bigelow,2010-01-28 Inter religious relations in India are notoriously fraught not infrequently erupting into violence This book looks at a place where the conditions for religious conflict are present but active conflict is absent Bigelow focuses on a Muslim majority Punjab town Malkerkotla where both during the Partition and subsequently there has been no inter religious violence With a minimum of intervention from outside interests Muslims Hindus and Sikhs have successfully managed conflict when it does arise Bigelow explores the complicated history of the region going back to its foundation by a Sufi saint in the fifteenth century Combining archival and interview material she accounts for how the community's idealized identity as a place of peace is realized on the ground through a variety of strategies As a story of peace in a region of conflict this study is an important counterbalance to many conflict studies and a corrective to portrayals of Islamic cultures as militant and intolerant This fascinating town with its rich history will be of interest to students and scholars of Islam South Asia and peace and conflict resolution *1914 [i.e.*

itself in the course of the nineteenth century is just one thread in this magnificent book which refuses to accept standard assumptions and analyses Rodger's comprehensive narrative goes beyond the conduct of war at sea to tell a sprawling story of naval warfare as a national endeavor As in previous volumes the social history of officers and men and now also women has a prominent place Along the way he describes the development and strategic significance of submarine and navy air forces and the rapid evolution of weapons and ships from classic Nelsonian type to hybrid steam sail ships then armor clad and the fully armored Dreadnoughts and beyond He assesses the character and importance of leading admirals Beatty Fisher Cunningham together with the roles of other less famous but no less consequential figures Rodger sets all this in the essential context of politics and geo strategy Based on a lifetime's learning *The Price of Victory* is a masterful culmination of one of the most significant British historical works in recent decades Naval specialists will find much that is new and will be invigorated by the originality of Rodger's judgments but everyone who is interested in one of the central threads in British history will find it rewarding
