Is your child a dreamer Does your child see visions If so do not ignore them Although every dream or vision does not have any spiritual benefit we still need to listen to our children This is so important because dreams and visions are the language of God Every human being on the planet has the innate ability to receive divine communication from God especially in the form of a dream The concept of dreams is fascinating and has researchers across the globe trying to find answers Dreams are a language all their own and interpretation comes solely from our Heavenly Father So if your child is a dreamer you need to explain to them that God can speak to them through dreams And take the time to show them scriptures about dreams This will cause them to be more mindful and pay attention when they have dreams Remember in 1 Samuel the 3rd chapter God was speaking to Samuel but he was young and did not yet know the voice of the Lord Very often God is speaking to our children and it is up to us to teach them to recognize and respond to the voice of the Lord Understand that not only will God communicate with children in dreams and visions the enemy will try and come with demonic communication Many prophetic children that are dreamers battle with nightmares and being harassed at night by demonic spirits Some children dream vividly almost every night and taking the time to listen to their dreams can give some insight to the source of their dreams or even reveal a message that God has been speaking through dreams The first half of this book is geared towards you the parents and other adults that are responsible for prophetic children The second half of this book is some activities for you to do along with your prophetic child
