space until he resells the merchandise He invests time and effort into marketing the item and either he or the end user pays shipping again to their location All of these steps have to be factored into the price of the item to the end user The customer will decide if the end price of the item is a bargain and is competitive As the shipper if the item is lost or damaged in shipping the expense of filing tracking and claims falls on him as well Drop Shipping is a proven way of reducing or eliminating many of these expenses thus making the end price lower for the consumer and more profitable for the seller With drop shipping a seller or retailer does not purchase the item and store it for resale but rather sells the merchandise and ships it directly from the manufacturer to the consumer The seller does not have to store the item or pay shipping from the manufacture to his location He does not have to handle the item himself This reduces chance of loss or damage and speeds up the process considerably He needs less start up money storage rental can be very costly and a product on hand that moves slower than anticipated can create a cash flow problem right out of the gate and can invest more time and money on his sales He also does not have to reship the item and there is only one shipping expense to absorb lowering the price of the item and making it of more value and profit for all concerned If there is loss or damage in shipping it falls on the manufacturer or distributor to provide the documents and file any claims with the shipping company involved Okay so all of this sounds great right But how do you get started This eBook will teach you how So let s get started [The Complete Guide to Dropshipping Winning Products](#) Spocket,2020-08-31 The Complete Guide to Dropshipping Winning Products With Spocket s ebook The Complete Guide to Dropshipping Winning Products learn first hand from dropshipping experts how they got their first sale and eventually made their first 6 figures Online sales are expected to grow to 4.9 billion by 2021 in the USA alone If you re thinking of starting a dropshipping business you ll want to do everything you can to get a piece of the pie But the truth is eCommerce isn t easy And without carefully choosing the right product with consideration you re bound to fail Selling random products will not bring you sales You need a strategy You need a method Why is this ebook a must have Learn how winning products will transform your store Get the secret tips and tricks experts use to grow their dropshipping businesses Learn how to select a niche and unsaturated products Leverage Etsy Amazon and Facebook to find best selling products and so much more What is the benefit of using Spocket High quality products With our huge range of US and European based products shipping is guaranteed to be fast and customers are bound to be happy Automation Everything related to managing an online dropshipping business is automated from inventory updates to order processing Discounted products All products have a 30-60% discount off retail price so that you can generate high margins on your store One click order fulfillment Quickly fulfill all of your customer s orders with our automated order fulfillment Fast Shipping Our United States and European based suppliers commit to fast shipping 24/7 Customer Support We offer 24/7 customer support so that retailers receive answers to their questions immediately Branded invoices Spocket adds your logo and brand to the invoices You are not just selling products you are building your own brand AliScraper Now you can import products from AliExpress straight
