Decolonial Gestures in Global Health Gerald M.

Boodoo,2026-02-28 Global health care standards have centered white colonial Euro US priorities in research prevention and treatment They have denigrated the needs and resources of colonized populations However calls have been growing to dismantle the enduring colonial structures and attitudes of global health This volume written by healthcare professionals from differing cultures and a range of disciplines hears those calls Rethinking healthcare from a decolonial perspective it suggests what certain aspects of global health could look like Its goal is not just to acknowledge the needs of non Western populations but to pluriversalise the field of global health Suitable for all who are interested in global health whether at the academic or practitioner levels this volume focuses on issues of equity in healthcare from multiple perspectives Desiring to engage all who are curious about decolonizing global health but are not quite sure how to go about it these chapters give theoretical and practical approaches to the problem These are not seen as definitive solutions but as gestures toward creating more just and fair minded practices in global health

Revelation of Jesus Christ Grace Chung,2025-08-25

I was raised by my mother and my grandmother who were very devout Christians and who had believed in Jesus for four generations We all attended a Presbyterian church in South Korea and especially my grandmother handed down her faith in Jesus to me through teaching me the bible and singing hymns for me The reason I translated this book was this The elder pastor from one of my former churches that I had attended asked me to interpret his sermons that he meditated on the words of Revelation When I refused to interpret his sermons Jesus appeared to me once in a cloud and confirmed me to translate his sermons from Korean to English So I obeyed the will of Jesus and interpreted his sermons from Korean to English While I was translating this book I saw Jesus shining His light upon me from Heaven Sometimes I could see even an angel pouring a jar of living water on me when I was translating this book from Korean to English While I was translating this book at 2 in the morning I even saw a mighty angel coming down from heaven whose face was so shining like the sun and whose voice was like the seven thunders This is the reason why I started interpreting this book This book is the words of God explaining about the book of Revelation and the end time It gives us the God s explanation about the plagues of seven bowls the perdition of the world the white throne judgment and heaven at the end This book will tell us in detail about how we should believe in

Jesus in order to be saved out of hell fire and out of all the plagues that will strike the earth in the upcoming future The messages of this book must be the warning signals of God that He wants to send to all of His churches and to all the people who live in the end time of the world While I was translating this book Jesus showed me a pure river of life flowing from the top of the mountain to the sea Jesus showed me that this message of the words of Revelation must be the pure water of water flowing from the throne of God in heaven which will restore the spirits of people to life I wish you will all read these three books and get an insight into what will happen in the close future in the world and prepare yourselves to be saved out of upcoming punishment of God that will befall earth and enter into heaven in the end after all If you are pastors you can also preach these messages to your congregation since Jesus said not to close this book but to read and keep the things written in the book of Revelation I pray that whoever reads and keeps the things written in these books of the words of Revelation meet Jesus and be blessed according to the words written in the book of Revelation while they live in this world and enter into heaven after all I wish we will all meet in heaven someday May God bless you all *Border Ecology* Ila Nicole

Sheren,2023-03-10 This book analyzes how contemporary visual art can visualize environmental crisis It draws on Karen Barad s method of agential realism which understands disparate factors as working together and entangled Through an analysis of digital eco art the book shows how the entwining of new materialist and decolonized approaches accounts for the nonhuman factors shaping ecological crises while understanding that a purely object driven approach misses the histories of human inequality and subjugation encoded in the environment The resulting synthesis is what the author terms a border ecology an approach to eco art from its margins gaps and liminal zones deliberately evoking the idea of an ecotone This book is suitable for scholarly audiences within art history criticism and practice but also across disciplines such as the environmental humanities media studies border studies and literary eco criticism *The World's Health* ,1930 **Our**
