Drug Industry A Case Study In Foreign Control:

The Drug Industry Myron J. Gordon, David John Fowler, Canadian Institute for Economic Policy, 1981 *Offshore Oil* Roger Voyer, 1983-01-01 First published in 1983 *Offshore Oil* is an early and prescient analysis of the prospects for oil and gas development off Canada's east coast. The book examines the potential of offshore oil to provide growth in Canadian industries. As development proceeds, huge sums will be invested and oil companies' needs include platforms, drilling rigs, ships, plants, and a host of smaller items such as drills, pumps, transformers, and electronic equipment. This presents opportunities not only for traditional industries such as steel and shipbuilding but also for the high technology sector. Offshore oil holds the prospect of energy self-sufficiency for Canada and of better times for the depressed Atlantic economy. But development of gas could also bring a boom and bust that damages the region's social and economic fabric. This book considers both possibilities.

Routledge Library Editions: Multinationals Various Authors, 2022-07-30 The volumes in this set originally published between 1955 and 1993 draw together research by leading academics in the area of multinationals and provides a rigorous examination of related key issues. The volumes examine foreign investment and currency translation, environmental control issues, and the impact of multinationals on the British economy. This set will be of particular interest to students of business studies.

Handbook of Global Technology Policy Stuart Nagel, 2000-09-28 The *Handbook of Global Technology Policy* presents and compares nonideological resolutions to environmental pollution and toxic waste, urbanization and transportation, homelessness, health care policies around the world. It provides an evaluation of industrial interventions and energy sources, explores flow control and corporate growth, privatization and liberalization, health data networks and electronic innovation and governance. Other topics include pharmaceutical policies, the state of science and technology in Africa, the reemergence of tuberculosis, wind energy, technology development and diffusion in Inner Mongolia, and major problems of policy implementation in India.

US Foreign Policy and the War on Drugs Cornelius Friesendorf, 2007-02-22 This book examines the geographic displacement of the illicit drug industry as a side effect of United States foreign policy. To reduce the supply of cocaine and heroin from abroad, the US has relied on coercion against farmers, traffickers, and governments, but this has only exacerbated the world's drugs problems. *US Foreign Policy and the War on Drugs* develops and applies a causal mechanism to explain the displacement, analyzing US anti-drug initiatives at different times and in various regions. The findings clearly show that American foreign policy has been a major driving force behind the global spread of the illicit drug industry, calling for urgent revision. This book will be of interest to students of US foreign policy, security studies, and international relations in general.

Negotiating NAFTA Maryse Robert, 2000-01-01 Using case studies in four areas negotiated in the North American Free Trade Agreement, Robert uses a theoretical framework to help explain the outcome of such negotiations in terms of structure and process. *International Legal Books in Print, 1990-1991* Bowker-Saur, 1990
