

CRISIS PREVENTION AND INTERVENTION PLAN TRAINING

REQUIRED CORE ELEMENTS	
1. WHAT is a crisis plan?	<p>A crisis plan is a document designed to:</p> <ul style="list-style-type: none"> > provide all the information necessary to help prevent a crisis from occurring. > provide information to guide an effective response when a crisis does occur, and > make a plan for successful crisis resolution.
2. WHO should receive a Comprehensive Prevention & Intervention Crisis Plan?	<p>1. The Comprehensive Crisis Prevention & Intervention Plan is designed to be one section of a Person-Centered Plan that can also be easily extracted as a stand-alone document for the purpose of easy distribution. ALL Person Centered Plans MUST include the Comprehensive Crisis Plan.</p> <p>2. In addition, the Comprehensive Crisis Prevention & Intervention Plan is RECOMMENDED for all consumers who are at significant risk of crisis events including those in basic benefit services. This would include persons who have, within the past year, been psychiatrically hospitalized or received inpatient treatment for a substance use disorder, who have been arrested, attempted suicide, or used crisis services (i.e., mobile crisis team, facility-based crisis or non-hospital detox unit, walk-in crisis, NC START, or use of a hospital's emergency department for reasons related to psychiatric illness or substance use).</p>
3. WHICH provider working with a consumer should lead the process of developing the Comprehensive Crisis Plan?	<p>The Comprehensive Crisis Plan should be developed by the primary clinician or provider who completes the Person Centered Plan (PCP), in collaboration with the consumer, and perhaps with input from others who know the consumer well. Developing a comprehensive crisis plan requires a good working relationship with the consumer, and the in-depth knowledge of the consumer that a primary provider would have. Please note that general characteristics / preferences section of the crisis plan should not reflect only the views of the consumer or only the opinion of the clinician, but should be completed in a truly collaborative fashion, reflecting both the preferences of the consumer <u>and</u> the best clinical judgment and expertise of the clinician.</p> <p>NOTES:</p> <ul style="list-style-type: none"> > Although mobile crisis teams are responsible for developing abbreviated one-page crisis plans, or "hot sheets," mobile crisis teams should not be charged with developing comprehensive crisis plans with consumers, unless the mobile crisis team is the typical and most constant provider of service for the consumer. > Likewise, professionals in FBCs, inpatient psychiatric hospitals or emergency rooms should <u>not</u> have responsibility for developing comprehensive crisis plans.
4. WHEN should the Comprehensive Crisis Plan be constructed?	<p>Constructing a Comprehensive Crisis Plan requires careful thought and knowledge of the person for whom it is being developed. The Comprehensive Crisis Plan should <u>not</u> be developed when the consumer is in the midst of a crisis, as thoughtful planning is often difficult to accomplish at such times. Although it does not need to be developed at the initial intake meeting with the consumer, it should be completed early in the treatment process, and if possible, within a month of intake.</p> <p>The Comprehensive Crisis Plan should be updated on the same schedule as the PCP, AND/OR shortly after any crisis episode occurs, AND/OR anytime there is a significant change in the course of treatment -- including medication changes.</p>
5. WHY are crisis plans important?	<p>Effective crisis plans help to:</p> <ul style="list-style-type: none"> > Avert danger to the consumer or other's health and well-being. > Prevent setbacks to an individual's recovery that results from the aftermath of a crisis, such as: <ul style="list-style-type: none"> o loss of confidence and self-esteem. o loss of a job.
