*Drugs, Crime, and Social Isolation* Adele Harrell, George E. Peterson, 1992      **Drug Use and Drug Policy** Marilyn D. McShane, Franklin P. Williams, 1997 The articles in this collection provide an overview of the research and writing on this topic between 1991 and 1995      **Essential Readings in Health Behavior** Mark Edberg, 2010-10-22 Health Behavior Education Promotion      **Girls, Women, and Crime** Meda Chesney-Lind, Lisa Pasko, 2013 A compilation of journal articles on the female offender written by leading researchers in the field of criminology and women's studies Reveals the complex worlds females in the criminal justice system must often negotiate      *Developmental Theories Of Crime And Delinquency* Terence P. Thornberry, In *Developmental Theories of Crime and Delinquency* Terence P Thornberry and his contributors show that criminal behavior is not a static human attribute but ebbs and flows over the life course of the individual Criminal behavior tends to follow a distinct psychological pattern It is relatively uncommon during childhood is initiated by most offenders during adolescence flourishes during late adolescence and early adulthood and usually diminishes or disappears by the mid twenties This pattern is not characteristic of all people some never commit crimes and others become career criminals but it is a general description of the developmental pattern of criminal offenders This pattern has profound implications for theories of crime and delinquency Not only does it explain initiation into maintenance of and desistance from involvement in crime it offers insight into why crime flourishes during adolescence Traditional theories of crime and delinquency have often failed to distinguish among different phases of criminal careers They tend to ignore developmental changes that occur across a person's life course changes that coincide with and can explain the causes and patterns of criminal behavior This paperback edition of the seventh volume of the distinguished series *Advances in Criminological Theory* moves us from static identifications of the criminal by presenting a broad range of developmental explanations of crime Each contributor articulates a developmental or life course perspective in explaining how people become involved in delinquency and crime Each covers a wide range of theoretical territory and reveals how a developmental perspective enhances the explanatory power of traditional theories of crime and delinquency This volume is an invaluable tool for criminologists sociologists psychologists and other professionals seeking to teach how crime and violence can be understood in our culture      [Handbook on Cities and Crime](#) Dietrich Oberwittler, Rebecca Wickes, 2025-04-09 With insightful contributions from eminent scholars in the field this multidisciplinary Handbook provides an authoritative overview of scholarship on cities and crime It discusses contemporary theoretical and methodological approaches to urban crime research as well as its practical implications and psychological impacts      **Criminology, Penology and Police Science Abstracts**, 1996      **Encyclopedia of Drugs, Alcohol & Addictive Behavior** Rosalyn Carson-DeWitt, 2001 V 1 A D v 2 E Q v 3 R Z v 4 Appendix and Index      [Substance Use & Misuse](#), 1999      [Drugs and the Community](#) Robert Carl Davis, Arthur J. **System** Ralph A. Weisheit,1990 **Papers Presented at the ... International Institute on the Prevention and Treatment of Alcoholism** ,1994 **Sense and Nonsense about Crime and Drugs** Samuel Walker,1994 Contemporary provocative and practical this new Third Edition of Sam Walkers widely used SENSE AND NONSENSE ABOUT CRIME AND DRUGS offers a pragmatic and sometimes unsettling look at the crime problem in America Walker presents a wide spectrum of views concerning criminal justice in contemporary America and aids readers in cutting through myths and political rhetoric and stimulates critical thinking **Dehumanizing Discourse, Anti-drug Law, and Policy in America** Assata Zerai,Rae Banks,2002 The problem of drug use by pregnant women has been widely discussed and both social policy and legislation have been created in an attempt to deal with it Using a black feminist analysis this probing volume challenges these policies and laws as well as much of the discussion by examining the significant sexist racist and class based ideologies which underlie them *Place Matters* Peter Dreier,John H. Mollenkopf,Todd Swanstrom,2004 Analyzes the problematic trends facing America s cities and older suburbs and challenges us to put America s urban crisis back on the national agenda **Environment & Planning A.** ,2006-07 **Working Paper Series** ,1996 **Women Street Hustlers** Barbara A. Rockell,2008 While the number of women in U S jails remains low in comparison with the number of men over the past 10 years their admission rate has soared and now surpasses the rate of increase for men While demographic information is available on these women it tells us little about who they are as people how they become repeat offenders or how they survive on the street The author sheds light on these issues in a study of female repeat offenders admitted to a New York state jail Despite the women s self defeating behaviors many of them reveal a surprising degree of initiative and self sufficiency This finding runs counter to previous research in which drug use and criminal activity by women have been viewed as reflecting the perpetrators victim status and lack of agency The author argues for seeing these behaviors in a broader social context and suggests avenues for future study as well as more humane and constructive intervention strategies **Under Siege** Walter S. DeKeseredy,2003-08-18 This book describes the relationship between poverty social marginalization and crime in six public housing communities in West Town in Ottawa Ontario Due to high levels of poverty joblessness low collective efficacy and other social problems the communities were for the most part unhappy places and this was compounded by the amount of crime Based on interviews and responses to the Quality of Neighborhood Life Survey QNLS the study showed that the residents were exposed to levels of risk poverty social disadvantage disorder and fear greater than those in the broader society The incidence of crime was also high with 55% of respondents being victimized by predatory crime wide spread public racial and sexual harassment and a disproportionate number of females experiencing intimate partner and stranger violence in public settings The last chapter focuses on possible government responses including economic approaches higher minimum wages reducing unemployment and social interventions provision of day care refurbishing of public housing improved public transportation and education
