Porter, 2004-04-10 Paper and electronic surveys of students and faculty have become increasingly popular in higher education research and are now used in almost all facets of assessment and planning Yet as the demand for survey research has increased survey response rates have been falling Low response rates are problematic because they can call into question the validity of the results as well as increase survey administration costs This volume examines an array of survey research problems and best practices with the aim of providing readers with ways to increase response rates while controlling costs Many institutional researchers face additional demands such as administering multiple

surveys over time or administering surveys on sensitive subjects such as student alcohol or drug use New technologies for survey administration also provide many different options This volume discusses these issues in terms of the survey research literature as well as the experiences of practitioners in the field This is the 121st volume of the higher education quarterly journal *New Directions for Institutional Research* *Leap of Honesty* Stephen Frederick Uhl, 2014-04-13 Faithful Catholic priest become atheist psychologist shows how he himself shucked and how the reader can enjoy shucking childhood prejudices and superstitions to thrill to rational friendliness in our pluralistic planetary society This book could have been titled *The Book of Tolerance* The psychologist author recognizes that each of us learned a lot of traditions and beliefs when too young to evaluate them Such prejudices are very deeply ingrained into the subconscious Therefore they are often most difficult to overcome even in adult years and with further experience and education Dr Uhl was already in his 30s when he finally got free many people never get free Each of us grows up and learns to analyze and think critically at different speeds Even in the same family one sibling may remain highly opinionated and prejudiced stuck in the past while another thoughtfully unlearns childhood myths and becomes a broadminded adult Therefore tolerance of such differing rates of learning and unlearning is necessary for civilized peace good friendships in a pluralistic society Such patient understanding is less difficult when one follows the new Golden Rule Treat others as you would reasonably want and expect them to treat you if your roles were reversed The thrilling details of an exciting journey with our planetary neighbors are clearly laid out in the little book *Leap of Honesty* Priest to Atheist A generous sprinkling of earthy humor richly seasons this revolutionary book for enjoyable spiritual nourishment Previously published as *Out of God's Closet* and *Imagine No Superstition*
