Drunkcow Landmines:

Drunkcow Landmines Daryl Meakes,2004-11 Drunkcow landmines are wickedly unusual but oddly believable stories that have been passed along by someone who believes the story to have happened to a friend of a friend Franz Joseph and Elisabeth Karen Owens,2013-11-08 In 1848 an 18 year old boy assumed the throne of Austria one of the most powerful countries in Europe He would be its last significant emperor the only monarch to serve two countries and the last cogent head of the prestigious Habsburg dynasty Emperor Franz Joseph s reign was marked by revolutions often fueled by rising liberalism and nationalism and wars orchestrated by conquering architects such as Napoleon Metternich and Bismarck This book gives attention to these political and cultural events but it is moreover a biography of Emperor Franz Joseph and his enigmatic wife Empress Elisabeth

Campus Traditions Simon J. Bronner,2012-09-10 From their beginnings campuses emerged as hotbeds of traditions and folklore American college students inhabit a culture with its own slang stories humor beliefs rituals and pranks Simon J Bronner takes a long engaging look at American campus life and how it is shaped by students and at the same time shapes the values of all who pass through it The archetypes of absent minded profs fumbling jocks and curve setting dweebs are the stuff of legend and humor along with the all nighters tailgating parties and initiations that mark campus tradition and student identities Undergraduates in their hallowed halls embrace distinctive traditions because the experience of higher education precariously spans childhood and adulthood parental and societal authority home and corporation play and work Bronner traces historical changes in these traditions The predominant context has shifted from what he calls the old time college small in size and strong in its sense of community to mass society s mega university a behemoth that extends beyond any campus to multiple branches and offshoots throughout a state region and sometimes the globe One might assume that the mega university has dissolved collegiate traditions and displaced the old time college but Bronner finds the opposite Student needs for social belonging in large universities and a fear of losing personal control have given rise to distinctive forms of lore and a striving for retaining the pastoral campus feel of the old time college The folkloric material students spout and sprout in response to these needs is varied but it is tied together by its invocation of tradition and social purpose Beneath the veil of play students work through tough issues of their age and environment They use their lore to suggest ramifications if not resolution of these issues for themselves and for their institutions In the process campus traditions are keys to the development of American culture

Negotiating Minefields Leon V. Sigal,2013-05-13 Against all odds the International Campaign to Ban Landmines helped to enact a global treaty banning antipersonnel mines in 1997 For that achievement it was awarded the Nobel Peace Prize In this volume Leon Sigal shows how a handful of NGOs with almost no mass base got more than 100 countries to outlaw a weapon that their armies had long used It is a story of intrigue and misperception of clashing norms and interests of contentious bureaucratic and domestic politics It is also a story of effective leadership of sustained commitment to a cause of alliances between campaigners and government officials of a US senator who championed the ban and of the skilful use of the news media Despite this monumental effort the campaign failed to get the United States to sign the treaty Drawing on extensive internal documents and interviews with US officials and ban campaigners Sigal tells the story of the in fighting inside the Clinton administration in the Pentagon and within the ban campaign itself that led to this major setback for an otherwise unprecedented successful global effort *Negotiating Minefields* will be of interest to students and scholars of military and strategic studies and politics and international relations Landmines Rae McGrath,1998 **The History of Landmines** Mike Croll,1998 While public interest in landmines is recent their use and that of their non explosive predecessors has a history which spans 2 500 years Mike Croll explains the development employment and reactions to these weapons from the concealed spikes of antiquity to the electronically fused systems of today *The History of Landmines* takes the reader from ancient Rome to the colonial wars and from the American Civil War to the Gulf War explaining why increasing numbers of these devices have been used and how they have become more sophisticated The genesis of the present humanitarian crisis is fully described along with the problems of clearing landmines today BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved *Landmines* Human Rights Watch Staff,1995-10 **Landmines and Human Security** Richard A. After the Guns Fall Silent Shawn Roberts, 2008 [The Banning of Anti-Personnel Landmines](#) Louis Maresca, Stuart Maslen, 2000-11-16 The International Committee of the Red Cross has played a key role in the effort to ban anti-personnel landmines and in offering aid to victims of war and internal armed violence. This book provides an overview of the work of the ICRC in this area from 1955 through 1999 and gives additional commentary on general issues of the methods and means of warfare. It contains International Committee of the Red Cross position papers, working papers, and speeches made by its representatives to the international meetings convened to address the mines issue, including the 1995-96 Review Conference of the 1980 Convention on Certain Conventional Weapons and the diplomatic meeting which adopted the Ottawa treaty banning anti-personnel mines.
