Drug Abuse Prevention Intervention Research Methodological Issues:

Drug Abuse Prevention Intervention Research National Institute on Drug Abuse,1991 This monograph is based on the papers and discussion from a technical review on Drug Abuse Prevention Intervention Research Methodological Issues held on May 22 23 1989 Rockville MD The review meeting was sponsored by the National Institute on Drug Abuse *Drug Abuse Prevention Intervention Research* William J. Bukoski,Carl G. Leukefeld,1991

Drug Abuse Prevention Intervention Research Carl G. Leukefeld,William J. Bukoski,National Institute on Drug Abuse,1991 *NIDA Research Monograph* ,1976 *Innovations in Adolescent Substance Abuse Interventions* Eric F. Wagner,Holly Waldron,2001-09-14 *Innovations in Adolescent Substance Abuse Interventions* focuses on developmentally appropriate approaches to the assessment prevention or treatment of substance use problems among adolescents Organized into 16 chapters this book begins with an assessment of adolescent substance use theory methods and effectiveness of a drug abuse prevention approach and problem behavior prevention programming for schools and community groups Some chapters follow on the community family and school based interventions for adolescents with substance use problems Other chapters explain psychopharmacological therapy the assertive aftercare protocol for adolescent substance abusers and twelve step based interventions for adolescents

Handbook of Drug Abuse Prevention Zili Sloboda,William J. Bukoski,2007-08-06 There are a number of reasons why this book is important First there is no one source that summarizes what we know about the prevention of substance abuse from the research field so the book serves as a repository of accumulated knowledge on prevention theory intervention design and development and prevention research methodology Second as an evolving field prevention science has only begun to assert itself in both the arenas of practice and policy The formation of the Society for Prevention Research in 1991 was the first recognition that a science of prevention existed and required a separate forum to present the rapidly growing content of the field for discussion and review Finally there is a need to establish a baseline a reference point against which progress in the field of prevention science can be assessed This book serves all of these purposes The idea for this book grew from the observation in the early 1990s that after decades of attempts to develop effective interventions to prevent drug use among children and adolescents in the United States that we were finally having success particularly in addressing the initiation of use These successes are the result of research that has provided a better understanding of the factors and processes associated with the onset of substance use **Public Health Reports** ,1996
