

Desertification

The image shows a wide, flat landscape under a pale, overcast sky. The ground is a mix of light brown and tan soil, with scattered small, dark rocks. In the middle ground, there are several small, sparse, greenish-brown shrubs and a few taller, thin trees. A dense line of trees forms a horizon line in the background. The overall scene depicts a dry, arid environment where vegetation is thinning out, characteristic of desertification.

Desertification is accelerating in dryland regions due in part to repetitive drought, unsustainable soil management and overgrazing.
