Dual Attraction Understanding Bisexuality:

Dual Attraction Martin S. Weinberg, Colin J. Williams, Douglas W. Pryor, 1995-06-01 For the past two generations extensive research has been conducted on the determinants of homosexuality But until now scant attention has been paid to what is perhaps the most mysterious and potentially illuminating variation of human sexual expression bisexuality Today as ignorance and fear of AIDS makes greater awareness of all forms of sexual behavior an urgent matter of private and public consequence leading sex researchers Martin Weinberg Colin Williams and Douglas Pryor provide us with the first major study of bisexuality Weinberg Williams and Pryor explore the riddle of dual attraction in their study of 800 residents of San Francisco Fieldwork intensive interviews and surveys provided a wealth of data about the nature of bisexual attraction the steps that lead people to become bisexual and how sexual preference can change over time They found that heterosexuals more often than homosexuals become bisexual that bisexual men and women differ markedly in their sexual behavior and romantic feelings that most bisexuals ultimately settle into long term relationships while continuing sexual activity outside those relationships and they also explain why transsexuals often become bisexual Moreover the authors discovered that as the AIDS crisis unfolded many bisexual men entered into monogamous relationships with women and bisexual women into more lesbian relationships Recent media accounts attest that a growing number of researchers and writers are narrowing the fundamental cause of sexual preference to a single factor biology But if as this study shows learning plays a significant part in helping people traverse the boundaries of gender if past and present intimate relationships influence their changing preferences and if bisexual activity is inseparable from a social environment which provides distinctive sexual opportunities then a mosaic of factors far more complex than those previously considered must be entertained in explaining the fuller spectrum of sexual preferences Dual Attraction is one of the most significant contributions to our understanding of sexuality since the original Kinsey reports and Bell and Weinberg s 1978 international bestseller Homosexualities It is must reading for all those interested in the study of sexual behavior especially now since the onset of AIDS

Dual Attraction Martin S. Weinberg, Colin J. Williams, Douglas W. Pryor, 1993 Weinberg Williams and Pryor explore the riddle of dual attraction in their study of 800 residents in San Francisco Fieldwork intensive interviews and surveys provided data about the nature of bisexual attraction the steps that lead people to become bisexual and how sexual preference can change over time They found that heterosexuals more than homosexuals become bisexual that bisexual men and women differ markedly in their sexual behaviour and romantic feelings that most bisexuals ultimately settle into long term relationships while continuing sexual activity outside those relationships and they also explain why transexuals often become bisexual Moreover the authors discovered that as the AIDS crisis unfolded many bisexual men entered into monogamous relationships with women and bisexual women into more lesbian relationships

Dual Attraction Martin Stephen Weinberg, Colin J. Williams, Douglas W. Pryor, Based on 10 years of extensive research this study examines how bisexuals construct their lives and what bisexuality

can tell us about human sexuality in general *Bisexuality and the Eroticism of Everyday Life* Marjorie Garber, 2013-05-13

Bisexuality is about three centuries overdue nevertheless here it is a learned witty study of how our curious culture has managed to get everything wrong about sex Gore Vidal **Male Bisexuality in Current Cinema** Justin Vicari, 2014-01-10

In recent decades male bisexuality has become a recurring topic in international cinema as filmmakers and their works challenge our ideas about sexual freedom and identity In all of these films more than a dozen of which are covered here bisexuality is treated both as an actual practice and a complex metaphor for a number of things including the need to adapt to changing environments the questioning of rigidly traditional male roles and identities the breakdown and regeneration of the structures of families the limitations of monogamy and the stubborn affirmation of romantic love **Worldwide**
