The Encyclopedia of the Industrial Revolution in World History Kenneth E. Hendrickson III, 2014-11-25 As editor Kenneth E Hendrickson III notes in his introduction Since the end of the nineteenth century industrialization has become a global phenomenon After the relative completion of the advanced industrial economies of the West after 1945 patterns of rapid economic change invaded societies beyond western Europe North America the Commonwealth and Japan In The Encyclopedia of the Industrial Revolution in World History contributors survey the Industrial Revolution as a world historical phenomenon rather than through the traditional lens of a development largely restricted to Western society The Encyclopedia of the Industrial Revolution in World History is a three volume work of over 1 000 entries on the rise and spread of the Industrial Revolution across the world Entries comprise accessible but scholarly explorations of topics from the aerospace industry to zaibatsu Contributor articles not only address topics of technology and technical innovation but emphasize the individual human and social experience of industrialization Entries include generous selections of biographical figures and human communities with articles on entrepreneurs working men and women families and organizations They also cover legal developments disasters and the environmental impact of the Industrial Revolution Each entry also includes cross references and a brief list of suggested readings to alert readers to more detailed information The Encyclopedia of the Industrial Revolution in World History includes over 300 illustrations as well as artfully selected extended quotations from key primary sources from Thomas Malthus Essay on the Principal of Population to Arthur Young s look at Birmingham England in 1791 This work is the perfect reference work for anyone conducting research in the areas of technology business economics and history on a world historical scale [Beatrice Webb; a Life, 1858-1943](#) Kitty Muggeridge, Ruth Adam, 1968

The Diaries of Beatrice Webb: All the Truth about Bernard Shaw Beatrice Webb, 2021-12-29 The book contains all known so far 151 aphoristic entries in the diaries of Beatrice Webb about her lifelong friend Nobel laureate and Oscar winner Bernard Shaw written between 1893 and 1943 and edited by a leading contemporary Shavian Vitaly Baziyan Beatrice Webb s keenest observations about the greatest Irish dramatist Bernard Shaw represent an important source for the study of British cultural social and political history They help to get a clearer picture of world renowned playwright as well as other celebrities of his time Here are some aphorisms from Beatrice Webb about Bernard Shaw He imagines that he gets to know women by making them in love with him Just the contrary His stupid gallantries bar out from him the friendship of women who are either too sensible too puritanical or too much otherwise engaged to care to bandy personal flatteries with him He

idealizes them for a few days weeks or years imagines them to be something utterly different from their true selves then has a revulsion of feeling and discovers them to be unutterably vulgar second rate rascalion or insipidly well bred He never fathoms their real worth nor rightly sees their limitations One is so accustomed to GBS s vanity and egotism One used to watch these faults leading to all sorts of rather cruel philanderings with all kinds of odd females His sensuality has all drifted into sexual vanity delight in being the candle to the moths with a dash of intellectual curiosity to give flavour to his tickled vanity And he is mistaken if he thinks that it does not affect his artistic work His incompleteness as a thinker his shallow and vulgar view of many human relationships the lack of the sterner kind of humour which would show him the dreariness of his farce and the total absence of proportion and inadequateness in some of his ideas all these defects come largely from the flippant and worthless self complacency brought about by the worship of rather second rate women For all that he is a good natured agreeable sprite of a man an intellectual cricket on the hearth always chirping away brilliant paradox sharp witted observation and friendly comments Whether I like him admire him or despise him most I do not know Just at present I feel annoyed and contemptuous He is self complacent feels himself one of the world geniuses and is mortified by the refusal of his generation to take him seriously as a thinker and reformer G B S s dogmatic conclusion is that Socialism consists of two ends equalisation of incomes and compulsory labour He has the illusion that he is and must be right because he has genius and his critics are just ordinary men He is a delightful companion for an outing always amusing and good tempered sufficiently exasperating in argument to avoid tameness in companionship the curse of the comradeship of the old He is a delightful raconteur a perfect gossip elaborating by witty exaggerations the life stories of his friends into human comedies and sometimes into inhuman tragedies GBS complains of hordes of journalists who dogged his steps as false publicity The great majority of those who crowd to see me have not read a word I ve written and those who have don t understand or disagree with my message to mankind All the same he enjoys it and rides triumphant over the mob of pressmen attracted by the force not of his message but of his bewitching personality the world wide glamour of it
