John Byrom

Beatus Ille:

Swarthmore Idylls John Russell Hayes, 1899 *Beatus Ille Qui Procul* , **Latin Prosody Made Easy ... With occasional observations and conjectures on the pronunciation of the ancient Greeks and Romans, etc** John CAREY (LL.D.), 1819 The Art of Translation in Light of Bakhtin's Re-accentuation Slav Gratchev, Margarita Marinova, 2022-10-06

Although Mikhail Bakhtin's study of the novel does not focus in any systematic way on the role that translation plays in the processes of novelistic creation and dissemination when he does broach the topic he grants translation a disproportionately significant role in the emergence and constitution of literature. The contributors to this volume from the US Hong Kong Finland Japan Spain Italy Bangladesh and Belgium bring their own polyphonic experiences with the theory and practice of translation to the discussion of Bakhtin's ideas about this topic in order to illuminate their relevance to translation studies today. Broadly stated the essays examine the art of translation as an exercise in a cultural re-accentuation a transferal of the original text and its characters to the novel soil of a different language and culture which inevitably leads to the proliferation of multivalent meanings and to explore the various re-accentuation devices employed over the span of the last 100 years in translating modern texts from one language to another. Through its contributors *The Art of Translation in Light of Bakhtin's Re-accentuation* brings together different cultural contexts and disciplines such as literature literary theory the visual arts pedagogy translation studies and philosophy to demonstrate the continued international relevance of Bakhtin's ideas to the study of creative practices broadly understood.

Working Through Memory Ofelia Ferrán, 2007. Studies various constructions of memory in contemporary Spanish literature evoking different aspects of a past of repression from both the civil war and the Franco regime. This book analyzes narrative texts published between the 1960s and 1990s that present memory and the recuperation of a traumatic past as their main theme.

The Gaze on the Past Olga López-Valero Colbert, 2007. This book explores Antonio Muñoz Molina's creation of compelling narratives about Spain's immediate past by engaging in a dynamic dialogue with popular culture subgenres and the media. The author asserts that popular culture functions in Muñoz Molina's novels as provider of a series of strategies that represent in the text aspects of Francoism and the Transition that because of their relevance are part of the structure of feeling of those periods. The study focuses on the role of popular music film photography the thriller the romance novel as well as the radio and other gadgets of modern technology in Muñoz Molina's Novels. *The Gaze on the Past* argues that through the incorporation of popular culture in texts Muñoz Molina undertakes a deliberate and intense reflection on memory and on the creation of historical moments highlighting their desire to be heard from publisher.
