Story of My Life František J. Vlček, 2004 The Story of My Life originally published in Czechoslovakia in 1928 is the engaging and informative autobiography of Frank Vlček a Czech immigrant who became a successful businessman in Cleveland Ohio during the late nineteenth and early twentieth centuries The youngest of fourteen children Vlček was born to peasant parents in Budyn southern Bohemia in 1871 After attempting a career in blacksmithing in Bohemia at the age of seventeen he decided to follow his two older sisters to Cleveland home to America's second largest Czech community Vlček worked a variety of unsatisfactory jobs during his first years in Cleveland In 1895 he opened his own smithing operation which after a long struggle was transformed into a successful corporation that specialized in the manufacture of toolkits for automobiles acquisitions and the successes and travails of his operation Vlček was often able to travel home to Czechoslovakia and during those trips he noted the different cultural and political attitudes that had evolved between Czechs and their Czech American cousins Vlček's memoir provides a rare primary source about Czech immigrants It also offers insight into a self-made man's life philosophy illustrates relations between ethnic groups in Cleveland during the 1880s and demonstrates the assimilation of a late nineteenth century immigrant in America Readers interested in immigration history as well as the history of Cleveland will enjoy this fascinating autobiography *The Story of Prague* Count Francis Lutzow, 2015-02-07 FEW cities in the world have a more striking and feverish historical record than Prague the ancient capital of Bohemia and of the lands of the Bohemian crown It is a very ancient saying at Prague that when throwing a stone through a window you throw with it a morsel of history The story of Prague is to a great extent the history of Bohemia and all Bohemians have always

shown a devoted affection for the hundred towered golden Prague as they fondly call it As Mr Arthur Symons has well said Prague is to a Bohemian still the epitome of the history of his country he sees it as a man sees the woman he loves with her first beauty and he loves it as a man loves a woman more for what she has suffered Foreigners however have not been backward in admiring the beauties of Prague The words of Humboldt who declared that Prague was the most beautiful inland town of Europe have often been quoted and it is certain that a traveller who looks at the town from the bridge or the Strahov Monastery or the Belvedere will share this opinion Of Stars and Men Zdenek Kopal,2017-10-02 The twentieth century has been a remarkable epoch in the affairs of men and this is no less true of astronomy at once the oldest and most modern of the sciences Sky watchers at the beginning of the century measured positions and predicted celestial motions in faithful but uninspired homage to the Muse Urania nowadays their descendents call on all the resources of modern science to probe the nature and evolution of a bewildering range of celestial objects Man has even set out to call personally on his nearest neighbours in space Professor Zdenek Kopal has lived and practised astronomy throughout this efflorescence of his subject Born in Czechoslovakia just before the outbreak of the Great War and educated in the classical European tradition he knows well the days when scholars commanded such respect that astronomical congresses would be visited by Heads of State Yet within his own lifetime he has himself been recruited to play an important role in scientific preparations for a manned Moon landing He has known and worked with some of the most highly respected practitioners of Modern Astronomy Russell Shapley Urey in the United States Eddington in Britain His fine eye for detail coupled with his strong sense of history enable him to unfold through his personal recollections the development of his subject across the social changes of two world wars Inspired by his grandfather who would think nothing of walking sixty miles to theatrical performance the young Kopal acquired a Wanderlust that has taken him in his career more than a dozen times round the world He has visited the most ancient observatories observed solar eclipses in Japan and Java helped to establish new institutions in Iraq and India and commuted for many years between the Old and New Worlds He has toiled in every corner of his chosen vinyard as observer outstanding theoretician populariser editor and teacher During his thirty years as Professor of Astronomy at Manchester he
