[An Introduction to Immigrant Incorporation Studies](#) Jan Rath,Marco Martiniello,2025-10-01 Focusing mainly on the European experience including Eastern Europe this important volume offers an advanced introduction to immigrant incorporation studies from a historical empirical and theoretical perspective Beyond incorporation theories renowned scholars in the field explore incorporation in action in different fields policy issues and normative dimensions

[Handbook on Migration and Social Policy](#) Gary P. Freeman,Nikola Mirilovic,2016-02-27 In this comprehensive Handbook an interdisciplinary team of distinguished scholars from the social sciences explores the connections between migration and social policy They test conflicting claims as to the positive and

negative effects of different types of migration against the experience of countries in Europe North America Australasia the Middle East and South Asia assessing arguments as to migration s impact on the financial social and political stability and sustainability of social programs The volume reflects the authors curiosity about the controversy over the connection between social and cultural diversity and popular support for the welfare state Providing timely and original chapters which both critique the existing literature as well as build on and advance theoretical understanding the authors focus on the formal settlement and integration polices created for migrants as well as corollary state policies affecting migrants and migration A clutch of chapters investigates the linkage between migration and trade theory foreign direct investment globalization public opinion public education and welfare programs Chapters then deal with leading receiving states as well as India and the authors examine the regulation of migration at the subnational national regional and global levels The topic of migration and security is also covered This compelling and exhaustive review of existing scholarship and state of the art original empirical analysis is essential reading for graduates and academics researching the field

The Heterogeneity Link of the Welfare State and Redistribution Udaya R. Waglé,2013-11-26 This book situates ethnic heterogeneity in the larger discussion of the welfare state and its redistributive outcomes poverty and inequality By using comprehensive longitudinal data covering 1980 to 2010 from 17 high income countries this analysis helps achieve a major milestone in comparative welfare state research both conceptually and methodologically Conceptually it elevates the relevance of growing ethnic heterogeneity in thinking about how politics and economics of the welfare state operate collectively impacting the magnitudes of poverty and inequality Methodologically the analysis conducted in this book provides broader empirical tests for the many propositions and discourses found in the literature based largely on anecdotal evidence case studies and unjustifiably limited quantitative data The innovative oepotionalization of the multidimensional character of both welfare state policies and ethnic heterogeneity help broaden the analytical frameworks of comparative welfare state research The outcome is a major advance in the way we understand the causes and redistributive consequences of the welfare state in which ethno racial religious and especially immigration heterogeneity can play a crucial role A thorough and insightful analysis presented in this book helps students researchers and policymakers better understand the ethnic heterogeneity connections of the welfare state and redistribution together with a comparative perspective of the changing faces of ethnic heterogeneity welfare state policies and poverty and inequality in high income countries

Immigrants and Poverty Beatrice Eugster,2018-06-21 Inequality has been rising in advanced industrialised countries At the same time increased immigration has accentuated the ethnic diversity of those countries Both developments have created challenges for advanced industrialised countries to integrate immigrants into the country Immigration and Poverty examines how advanced industrialised countries integrate immigrants into the labour market and welfare state and how this influences immigrant poverty The main argument draws on insights from two research strands the comparative welfare state and the migration

literature In brief this book argues that a country's labour market and welfare system does not directly influence immigrants' poverty but is conditional on immigrants' social rights here understood as their labour market and welfare state access Immigration and Poverty argues and shows that it is crucial to embed migration specific policies within a country's prevailing institutional setting to understand why immigrants fare better in some countries as compared to others

Inequality and the Fading of Redistributive Politics Keith Banting, John Myles, 2013-09 All advanced democracies have faced the pressures of globalization technological change and new family forms which have generated higher levels of inequality in market incomes But countries have responded differently reflecting differences in their domestic politics The politics of who gets what and why is at the core of this volume the first to examine this question in an explicitly Canadian context In **Inequality and the Fading of Redistributive Politics** leading political scientists sociologists and economists point to the failure of public policy to contain surging income inequality Government programs are no longer offsetting the growth in inequality generated by the market and Canadian society has become more unequal The redistributive state is fading due to powerful forces that have reshaped the politics of social policy including global economic pressures ideological change shifts in the influence of business and labour changes in the party system and the decline of equality seeking civil society organizations On one side the organizations that speak for the economic interests of lower income Canadians mobilizing resources expertise and attention on their behalf have been weakened On the other side changes in the distribution of power within our political institutions have made concerted action to tackle inequality more difficult This volume demonstrates conclusively that action and inaction policy change and policy drift are at the heart of growing inequality in Canada Governments have not responded energetically to the evidence and their indifference calls into question Canada's record as a kinder gentler nation

Routledge Handbook of Islam in the West Roberto Tottoli, 2014-09-19 Islam has long been a part of the West in terms of religion culture politics and society Discussing this interaction from al Andalus to the present this Handbook explores the influence Islam has had and continues to exert particularly its impact on host societies culture and politics Highlighting specific themes and topics in history and culture chapters cover European paradigms Muslims in the Americas Cultural interactions Islamic cultural contributions to the Western world Western contributions to Islam Providing a sound historical background from which a nuanced overview of Islam and Western society can be built the Routledge Handbook of Islam in the West brings to the fore specific themes and topics that have generated both reciprocal influence and conflict Presenting readers with a range of perspectives from scholars based in Europe the US and the Middle East this Handbook challenges perceptions on both western and Muslim sides and will be an invaluable resource for policymakers and academics with an interest in the History of Islam Religion and the contemporary relationship between Islam and the West

The International Migration Review, 2005

Immigration and the welfare state - A comparative perspective of asylum and highly-skilled migration in Britain and Germany Susanne Taron, 2006-11-26 Seminar paper from the year 2006 in the subject Politics Region Western Europe grade 1.0 University of Münster Politikwissenschaft European Studies course European Social Policies language English abstract

Armed conflict economic despair and systematic violations of human rights have produced unprecedented challenges to today's international system It is thus the post Cold War era has become witness to significant alterations in global politics that has subsequently generated acute increases in the number of worldwide migrants Consequently it is the relationship staggered between immigration and welfare that continues to become an increasingly salient European affair Immigration continues to remain a contentious issue spawning vigorous debates intensely focused on welfare and social rights

Are immigrants likely to make positive contributions to welfare states Or are immigrants rather liable to be a threat posing financial social and political burdens and an overall risk to the survival of these welfare states Underpinning these ubiquitous questions has been a realignment of debates about the needs and resources of European welfare states with the renewed interest in immigration as a means of offsetting skills and labour market shortages while countering the effects of a demographically aging European population

1 Immigration additionally has been viewed as a means in achieving the European Union's ambitious Lisbon targets in that Europe would become the most competitive and dynamic knowledge based economy in the world capable of sustainable economic growth with more and better jobs and greater social cohesion

2 Yet as with most social issues the simple term immigration fails to do justice to the wide range of issues that this policy area entails In fact there is much to be said about the composition of immigrants and it would be a huge oversight to classify immigration as though it were homogenous An acute distinction must be drawn between desired and undesired forms of immigration in the ways in which debates about needs and resources have been recast in Europe Indeed it seems that through this differentiation European welfare states have pursued a janus headed approach to immigration in that European welfare states continue to open their doors to highly skilled immigrants deemed as positive but on the other hand have continued to vigorously close their doors particularly to asylum immigrants which have become increasingly unwanted and the source of restrictive policies

Migration, Citizenship, and the European Welfare State Carl-Ulrik Schierup, Peo Hansen, Stephen Castles, 2006-03-16 This book provides a major new examination of the current dilemmas of liberal anti racist policies in

European societies linking two discourses that are normally quite separate in social science immigration and ethnic relations research on the one hand and the political economy of the welfare state on the other The authors rephrase Gunnar Myrdal's questions in *An American Dilemma* with reference to Europe's current dual crisis that of the established welfare state facing a declining capacity to maintain equity and that of the nation state unable to accommodate incremental ethnic diversity They compare developments across the European Union with the contemporary US experience of poverty race and class They highlight the major moral political dilemma emerging across the EU out of the discord between declared ideals of citizenship and actual exclusion from civil political and social rights Pursuing this overall European predicament the authors provide a critical scrutiny of the EU's growing policy involvement in the fields of international migration integration discrimination and racism They relate current policy issues to overall processes of economic integration and efforts to develop a European social dimension Drawing on case study analysis of migration the changing welfare state and labour markets in the UK Germany Italy and Sweden the book charts the immense variety of Europe's social and political landscape Trends of divergence and convergence between single countries are related to the European Union's emerging policies for diversity and social inclusion It is among other things the plurality of national histories and contemporary trajectories that makes the European Union's predicament of migration welfare and citizenship different from the American experience These reasons also account in part for why it is exceedingly difficult to advance concerted and consistent approaches to one of the most pressing policy issues of our time Very few of the existing sociological texts which compare different European societies on specific topics are accessible to a broad range of scholars and students The *European Societies* series will help to fill this gap in the literature and attempt to answer questions such as Is there really such a thing as a European model of society Do the economic and political integration processes of the European Union also imply convergence in more general aspects of social life such as family or religious behaviour What do the societies of Western Europe have in common with those further to the East This series will cover the main social institutions although not every author will cover the full range of European countries As well as surveying existing knowledge in a manner useful to students each book will also seek to contribute to our growing knowledge of what remains in many respects a sociologically unknown continent The series editor is Colin Crouch

Reinventing the Welfare State Ruud A. de Mooij, 2006 The Dutch welfare state is under pressure Future trends of ageing and globalisation render public finances unsustainable and worsen the position of low skilled workers on the labour market At the same time welfare state institutions seem insufficiently adapted to changed socio cultural circumstances Moreover they cause inactivity among elderly workers women and social benefit recipients To prepare for the future the Dutch government aims to raise labour supply and improve human capital This study explores how welfare state reform can contribute to these goals Thereby we take into account the key social and economic functions that the welfare state fulfils in our society We analyse a number of reforms in Dutch institutions from a broad welfare perspective and quantify their effects

on the labour market and the income distribution The study also develops three comprehensive prototype welfare state reforms for the Netherlands in the future We explore how robust these different prototypes are for immigration economic integration and technological change *International Bibliography of Book Reviews of Scholarly Literature Chiefly in the Fields of Arts and Humanities and the Social Sciences*, 2004 **Migrants to the Metropolis** Marie Price, Lisa Benton-Short, 2008-06-27 This collection examines contemporary global immigration trends and their effects on host cities The book focuses not just on cities with long established diverse populations such as New York Toronto and Sydney but also on cities such as Birmingham UK Amsterdam Washington DC Johannesburg Singapore and Dublin **Policy, People, and the New Professional** Jan Willem Duyvendak, Trudie Knijn, 2006 An essential perspective on the latest shifts in roles of the health and welfare professionals throughout Europe *The Dynamics of International Migration and Settlement in Europe* Rinus Penninx, 2006 Includes bibliographical references
