Bedford Companion To Shakespeare 2nd Edition:

Bedford Companion to Shakespeare 2nd Ed + Twelfth Night + King Henry the Fourth Part 1 + Hamlet + ...

Russ McDonald, 2010 The Bedford Companion to Shakespeare Russ McDonald, 2001 This text provides a combination of well written up to date background information and selections from primary documents The Bedford Companion to Shakespeare introduces students to the topics most important to the study of Shakespeare in their full historical and cultural context This second edition contains many new documents particularly by women and other marginalized voices from the early modern period There is also a new chapter on Shakespeare in performance which introduces students to the great variety of productions of Shakespeare's works over the centuries Shakespeare and the Middle Ages Martha W. Driver, Sid Ray, 2014-01-10 Every generation reinvents Shakespeare for its own needs imagining through its particular choices and emphases the Shakespeare that it values The man himself was deeply involved in his own kind of historical reimagining This collection of essays examines the playwright's medieval sources and inspiration and how they shaped his works With a foreword by Michael Almereyda director of the Hamlet starring Ethan Hawke and dramaturge Dakin Matthews these thirteen essays analyze the ways in which our modern understanding of medieval life has been influenced by our appreciation of Shakespeare's plays Othello (Second Edition) (Norton Critical Editions) William Shakespeare, 2017 I wanted an edition of Othello that had the necessary footnotes background material and a good selection of recent critical articles that would be accessible to students and would spark class discussions This was it Deborah Montuori Shippensburg University This Norton Critical Edition includes The First Folio text 1623 An introduction explanatory footnotes note on the text and textual notes by Edward Pechter Fifteen illustrations Giraldi Cinthio's sixteenth century story in its entirety which Shakespeare used for both the plot and many details of Othello A generous selection of interpretive responses to Othello from its origins to the present day including new to the Second Edition those by Stanley Cavell and Lois Potter Edward Pechter's popular theatrical and critical overview of Othello has been significantly expanded An updated Selected Bibliography **The Greenwood Companion to Shakespeare: Overviews and the history plays** Joseph Rosenblum, 2005 This volume begins with essays on a number of broad topics related to Shakespeare and his world including his era his text the theater his life and his language Inside Shakespeare Paul Menzer, 2006-05 This collection of essays addresses questions peculiar to the Blackfriars and indoor playing Did the Blackfriars have its own repertory What was the place of the Blackfriars in the urban economy What qualities did the Blackfriars share with the long tradition of great hall performances The essays span a range of approaches from performative to historical to textual Publisher's description **Heterodox Shakespeare** Sean Benson, 2017-02-09 The last quarter century has seen a turn to religion in Shakespeare studies as well as competing assertions by secular critics that Shakespeare's plays reflect profound skepticism and even dismissal of the truth claims of revealed religion This divide though real obscures the fact that Shakespeare often embeds both readings within the same play This book is the first to

propose an accommodation between religious and secular readings of the plays Benson argues that Shakespeare was neither a mere debunker of religious orthodoxies nor their unquestioning champion Religious inquiry in his plays is capacious enough to explore religious orthodoxy and unorthodoxy everything from radical belief and the need to tolerate religious dissent to the possibility of God's nonexistence Shakespeare's willingness to explore all aspects of religious and secular life often simultaneously is a mark of his tremendous intellectual range Taking the heterodox as his focus Benson examines five figures and ideas on the margins of the post Reformation English church nonconforming puritans such as Malvolio as well as physical revenants the walking dead whom Shakespeare alludes to and features so tantalizingly in Hamlet Benson applies what Keats called Shakespeare's negative capability his ability to treat both sides of an issue equally and without prejudice to show that Shakespeare considers possible worlds where God is intimately involved in the lives of persons and in the very same play a world in which God may not even exist Benson demonstrates both that the range of Shakespeare's investigation of religious questions is more daring than has previously been thought and that the distinction between the sacred and the profane between the orthodox and the unorthodox is one that Shakespeare continually engages
