Beauty Of Men:

The Beauty of Men Andrew Holleran,1998-02-01 *Hunks, Hotties, and Pretty Boys* Steven L. Davis, Maglina Lubovich,2010-08-11 White heterosexual middle class men have long served as the standard for masculine beauty even if such men have refused to embrace this term This study seeks to denaturalize this standard by exploring the connections between beauty and the broad spectrum of masculinities The chapters included in *Hunks Hotties and Pretty Boys* contribute primarily to the field of gender studies specifically masculinity studies They consider twentieth century representations of male beauty through a variety of mediums performance literature art photography film and television Although the contributors hail from both the humanities and the social sciences all share a concern for how beauty informs shapes defines and re defines our understanding of masculinity itself These scholars investigate a range of historical periods and draw from a broad scope of critical approaches Some interrogate male beauty through the female gaze and look to the influence of female performance on notions of masculine beauty Others examine how queer and racial constructions of male beauty refuse and offer alternatives to hegemonic models of identity Another revisits previous philosophical and theoretical conceptions of beauty only to deconstruct gendered conceptions of the beautiful and the sublime In all these essays complicate masculine beauty by examining Chicano Asian working class and female constructions of male beauty in Western culture

Female Beauty Systems Christine Adams, Tracy Adams,2015-09-04 Female beauty systems everywhere are complex integrating markers of class status power and sexuality to perform the fundamental function of sorting individuals into categories of more or less desirable Heirs to the tradition of courtly love modern western female beauty systems tend to share the norm of man as pursuer woman as pursued having developed around the trope of the madly desiring poet or knight supplicating his aloof and lovely lady for her favor The apparent longevity of the courtly love tradition raises the question of whether the way in which it structures male desire in reaction to female beauty is part of a universal tendency an evolutionary adaptation despite clear evidence that female beauty systems are also in fact socially constructed and reflect enormous ambivalence about the power and performance of beauty Although modern western female beauty systems are routinely demystified and contested today the purveyors of culture that support them institutional intellectual artistic commercial and popular continue as they always have to construe women as objects of male desire Still within this basic structure the systems have varied greatly across time and space with women using beauty as a form of social capital in widely differing ways Moreover as individuals have begun to experience their bodies as malleable and endlessly transformable rather than unruly and unyielding many have begun to experience beauty less as a given and more as a project The nine essays collected here examine a number of different Western female beauty systems over the centuries considering how women have complied with contributed to profited or suffered from and resisted them
