on to examine the New Labour years and the ways in which sponsorship has paved the way for the increased use of private public partnerships and private finance initiatives within the public sector in the UK

**Basics Design 02: Layout** Gavin Ambrose, Paul Harris, 2005-05 Addresses the practical and aesthetic considerations of layout such as where and how the content will be viewed whether the format is a magazine website television graphic or bottle of bubble bath This book will prove indispensable to anyone wishing to acquire a thorough knowledge of the principles of layout as used in modern design Through the considered application of these principles a more balanced and effective design can be achieved **8**
