Beef Cattle Science:

Beef Cattle Science M. Eugene Ensminger, Randy Charles Perry, 1997 Beef Cattle Science Handbook, Vol. 19 Frank H. Baker, 2019-08-20 The 1983 International Stockmen's School Handbooks include more than 200 technical papers presented at this year's Stockmen's School sponsored by Winrock International by outstanding animal scientists, agribusiness leaders and livestock producers expert in animal technology, animal management and general fields relevant to animal agriculture. The Handbooks represent advanced technology in a problem-oriented form readily accessible to livestock producers, operators of family farms, managers of agribusinesses, scholars and students of animal agriculture. The Beef Cattle Science Handbook, the Dairy Science Handbook, the Sheep and Goat Handbook and the Stud Managers Handbook each include papers on such general topics as genetics and selection, general anatomy and physiology, reproduction, behavior and animal welfare, feeds and nutrition, pastures, ranges and forests, health, diseases and parasites, buildings, equipment and environment, animal management, marketing and economics including product processing when relevant, farm and ranch business management and economics, computer use in animal enterprises and production systems. The four Handbooks also contain papers specifically related to the type of animal considered.

Beef Cattle Science M. Eugene Ensminger, 1987 Obviously not a book for vegetarians though as Ensminger Agriservices Foundation, Clovis, CA and Perry, CA State U Fresno remind us: All flesh is grass. Since the 1987 edition, the beef industry's challenges have further calved despite additional cattle breeds, namely The War on Fat, 1990 and several beef quality audits prior to recent mad cow disease and E. coli scares, the former but not the latter is covered. Topics span the history and business of cattle raising, nutrient requirements, health, behavior, genetics and slaughter weights and measures of animals and feeds, breed registry, associations, periodicals and US and Canadian colleges of agriculture.
