Contemporary Continental Philosophy:

Continental Philosophy Andrew Cutrofello, 2004-03 Continental Philosophy A Contemporary Introduction looks at the development of the tradition tracing it back from Kant to the present day

Contemporary Continental Philosophy Robert D'amico, 2018-02-12 This book shows how the continental philosophical tradition developed in the twentieth century in a philosophically distinct manner It focuses on the central philosophical ideas specifically the core issues in epistemology and ontology that constitute this tradition or approach as distinct

Contemporary Continental Philosophy Stuart Sim, 2017-08-03 This title was first published in 2000 Contemporary continental philosophy is a widely used but in many ways a highly problematic term and its exact frame of reference is not always clear In its more recent French manifestations in particular it continues to arouse considerable controversy and create bitter divisions with particularly hostile reactions to the work of Derrida and others Much work in the recent continental tradition can be fitted into a longer running philosophical tradition of scepticism and scepticism has always had the power to provoke and unsettle the philosophical establishment Presenting an overview of the philosophical landscape of the continental tradition since the 1940s this book traces the establishment of the new super scepticism as an intellectual paradigm with the power to threaten and disorientate existing world views and more traditional styles of philosophical discourse marking the continental divide Exploring how contemporary continental philosophy from existentialism to postmodernism can be characterised as this new more resistant form of scepticism Sim identifies a clutch of key themes including difference the subject antifoundationalism dialectics which have been obsessively worked over by key thinkers in the Existentialist Postmodernist period and demonstrates how these have contributed to the development of a super sceptical outlook Presenting a new theme led approach to provide an entry into current debates in continental philosophy Stuart Sim reintegrates the work of Sartre into the more recent continental tradition and suggests that something qualitatively different is now occurring in French philosophy

Explorations in Contemporary Continental Philosophy of Religion Deane-Peter Baker, Patrick Maxwell, 2003 This book is an exploration of the content and dimensions of contemporary Continental philosophy of religion It is also a showcase of the work of some of the philosophers who are by their scholarship filling out the meaning of the term Continental philosophy of religion

Hegel and Contemporary Continental Philosophy Dennis King Keenan, 2004-06-10 Twenty three of the most important writings by contemporary continental thinkers on the work of Hegel

Theology and Contemporary Continental Philosophy Colby Dickinson, 2018-12-31 This book aims to put modern continental philosophy specifically the sub fields of phenomenology existentialism hermeneutics deconstruction critical theory and genealogy into conversation with the field of contemporary theology Colby Dickinson demonstrates the way in which negative dialectics or the negation of negation may help us to grasp the thin or non existent borders between continental philosophy and theology as the leading thinkers of both fields wrestle with their entrance into a new era With the declining place of the sacred in the public sphere we need to pay more attention

than ever to how continental philosophy seems to be returning to distinctly theological roots Through a genealogical mapping of 20th century continental philosophers Dickinson highlights the ever present Judeo Christian roots of modern Western philosophical thought Opposing categories such as immanence transcendence finitude infinitude universal particular subject object are at the center of works by thinkers such as Agamben Marion Vattimo Levinas Latour Caputo and Adorno This book argues that utilizing a negative dialectic allows us to move beyond the apparent fixation with dichotomies present within those fields and begin to perform both philosophy and theology anew *Thinking About Love* Diane Enns, Antonio Calcagno, 2015-11-06 Does love command an ineffability that remains inaccessible to the philosopher Thinking About Love considers the nature and experience of love through the writing of well known Continental philosophers such as Hannah Arendt Simone de Beauvoir Jacques Derrida and Maurice Merleau Ponty Evolving forms of social organization rapid developments in the field of psychology and novel variations on relationships demand new approaches to and ways of talking about love Rather than offering prescriptive claims this volume explores how one might think about the concept philosophically without attempting to resolve or alleviate its ambiguities paradoxes and limitations The essays focus on the contradictions and limits of love manifested in such phenomena as trust abuse grief death violence politics and desire An erudite examination of the many facets of love this book fills a lacuna in the philosophy of this richly complicated topic Along with the editors the contributors are Sophie Bourgault John Caruana Christina M Gschwandtner Marguerite La Caze Alphonso Lingis Christian Lotz Todd May Dawne McCance Dorothea Olkowski Felix Murchadha Fiona Utley and M lanie Walton **Debates in Continental Philosophy** Richard Kearney, 2004 This is a collection of illuminating encounters with some of the most important philosophers of our age by one of its most incisive and innovative critics Continental Philosophy and Philosophy of Religion Morny Joy, 2010-11-05 This is the first book that provides access to twelve Continental philosophers and the consequences of their thinking for the philosophy of religion Basically in the second half of the twentieth century it has been treated from within the Anglo American school of philosophy which deals mainly with proofs and truths and questions of faith This approach is more concerned with human experience and pays more attention to historical context and cultural influences As such it provides challenging questions about the way forward for philosophy of religion in the twenty first century **Debates in Continental Philosophy** Richard Kearney, 2004 This is a collection of illuminating encounters with some of the most important philosophers of our age by one of its most incisive and innovative critics *Beyond the Analytic-Continental Divide* Jeffrey A. Bell, Andrew Cutrofello, Paul M. Livingston, 2015-08-27 This forward thinking collection presents new work that looks beyond the division between the analytic and continental philosophical traditions one that has long caused dissension mutual distrust and institutional barriers to the development of common concerns and problems Rather than rehearsing the causes of the divide contributors draw upon the problems methods and results of both traditions to show what post divide philosophical work looks like in practice Ranging from

metaphysics and philosophy of mind to political philosophy and ethics the papers gathered here bring into mutual dialogue a wide range of recent and contemporary thinkers and confront leading problems common to both traditions including methodology ontology meaning truth values and personhood Collectively these essays show that it is already possible to foresee a future for philosophical thought and practice no longer determined neither as analytic nor as continental but instead as a pluralistic synthesis of what is best in both traditions The new work assembled here shows how the problems projects and ambitions of twentieth century philosophy are already being taken up and productively transformed to produce new insights questions and methods for philosophy today

The Theory of Difference Douglas L. Donkel, 2001-03-29 Unlike other anthologies in continental thought this book focuses on a specific issue the theory of difference as the most effective way to generate interest and understanding not only of the specific issue in question but also of the deeper philosophical connections which constitute the historical fabric of a tradition Presented here are key texts some of which were previously out of print from Martin Heidegger Maurice Merleau Ponty Gilles Deleuze Jacques Derrida and Luce Irigaray that have been selected to highlight each thinker's understanding of difference as well as suggesting its implications for a range of issues as ostensibly diverse as the question of Being the meaning of justice the problem of translation the status of theological language sexual difference and the nature of the postmodern

The Question of the Other Arleen B. Dallery, Charles E. Scott, Director of the Vanderbilt Center for Ethics and Distinguished Professor of Philosophy Charles E. Scott, 1989-01-01 The core source of this book is the work of Emmanuel Levinas Beginning with a chapter on speaking and the other three lead chapters focus on Levinas account of the face of the other These chapters are followed by explorations of the ethics of dissemination in Derrida the freedom of the other in Sartre the cultural other in Husserlian phenomenology the other as sexual difference in Irigaray and Nietzsche the sublime in aesthetics and the deconstruction of the primacy of the ego in Foucault and Lacan This book is especially relevant to feminist theory It shows that postmodern continental philosophy does indeed have ethical implications The question of the other or the presence of the other undercuts the foundationalist starting points of ethical theory and epistemology The Question of the Other presents fresh and original interpretations of Husserl Nietzsche Derrida Levinas Irigaray Foucault Lacan Heidegger and Sartre

Idea of Continental Philosophy Simon Glendinning, 2006-06-12 The idea of Continental Philosophy has never been properly explained in philosophical terms In this short and engaging book Simon Glendinning attempts finally to succeed where others have failed although not by giving an account of its internal unity but by showing instead why no such account can be given Providing a clear picture of the current state of the contemporary philosophical culture Glendinning traces the origins and development of the idea of a distinctive Continental tradition critiquing current attempts to survey the field of contemporary philosophy

The Continental Philosophy Reader Richard Kearney, Mara Rainwater, 1996 The Continental Philosophy Reader is the first complete anthology of classic writings from the major figures in European thought and provides a powerful introduction to one of the 20th

century's most influential intellectual movements Emerging Trends in Continental Philosophy Todd May, 2014-09-11
Emerging Trends in Continental Philosophy presents a comprehensive and accessible analysis of the most recent developments in European thought From feminist thought to environmental philosophy to analytic themes in Continental philosophy to recent discussions of citizenship Emerging Trends offers an overview of the currents animating contemporary Continental philosophy The volume focuses on thematic developments rather than individual figures allowing the reader to follow the threads that weave different thinkers together Each essay is written by an expert in the area covered displaying the passion of these experts for the fields they discuss without lapsing into jargon The volume provides a broad map of the landscape of recent European thought as well as the latest thinking from leading scholars on key themes **Studies in**

Contemporary Continental Philosophy [Anonymus AC02803724], 1989 *In Deference to the Other* Jim Kanaris, Mark J. Doorley, 2012-02-01 In Deference to the Other brings contemporary continental thought into conversation with that of Bernard Lonergan 1904-1984 the Jesuit philosopher and theologian This is an opportune moment to open such a dialogue philosophers and theologians indebted to Lonergan have increasingly found themselves challenged by the insights of thinkers typically dubbed postmodern while postmodernists most notably Jacques Derrida have begun to ask the God question While Lonergan was not a continental philosopher neither was he an analytic philosopher Concerned with both epistemology and cognition his systematic and hermeneutic like proposals resonate with the concerns of philosophers such as Derrida Foucault Levinas and Kristeva Contributors to this volume find insight and affiliation between Lonergan's thought and contemporary continental thought in a wide ranging work that engages the philosophical problems of authenticity self appropriation ethics and the human subject *Notebook for Contemporary Continental Philosophy*, 1998 Presents a collection of resources on contemporary continental philosophy and philosophers Offers access to societies publications institutions biographies and language and research aids Provides information about theories philosophers logicians Marxism neo Thomism the Frankfurt School and critical theory phenomenology existentialism postmodernism and North American philosophy and thought

Paul in the Grip of the Philosophers Peter Frick, 2013-11-01 One of the remarkable developments in the contemporary study of Paul is the dramatic interest in his thought amongst European philosophers This collection of leading scholars makes accessible a discussion often elusive to those not already conversant in the categories of European philosophy Each scholar address s systematically what major philosophers have made of Paul and why it matters
