Contemporary Juristic Theory:

Contemporary Juristic Theory Roscoe Pound, 1940 **Contemporary Juristic Theory, Civil Rights, and American Politics** George Steven Parthemos, 1962 Law and Politics Mauro Zamboni, 2007-10-25

Politics and the political discourse occupy a central position in the modern legal theoretical discussion. The goal of this book is to reconstruct and to classify according to ideal typical models the different positions taken by the major contemporary legal theories as to whether and how law relates to politics. In particular attention is focused on Kelsen, Hart, Finnis, Critical Legal Studies, Law and Economics, and legal realisms. Though reaching different conclusions, these major legal theories have some common points of departure as to the law and politics issue: law and politics tend to keep the features of being two different phenomena as well as of presenting regions of interaction although with differences as to extent and intensity. Finally, a possible explanation is presented as to why such different legal theories, though often reaching diametric results, somehow must still begin from these common basic points. The explanation for this is found in the specific character of law in the modern state and the welfare state in particular.

Legal Theory and the Social Sciences Maksymilian Del Mar, Michael Giudice, 2017-07-05

Ever since H. L. A. Hart's self-description of *The Concept of Law* as an exercise in descriptive sociology, contemporary legal theorists have been debating the relationship between legal theory and sociology and between legal theory and social science more generally. There have been some who have insisted on a clear divide between legal theory and the social sciences, citing fundamental methodological differences. Others have attempted to bridge gaps, revealing common challenges and similar objects of inquiry. Collecting the work of authors such as Martin Krygier, David Nelken, Brian Tamanaha, Lewis Kornhauser, Gunther Teubner, and Nicola Lacey, this volume, the second in a three-volume series, provides an overview of the major developments in the last thirty years. The volume is divided into three sections, each discussing an aspect of the relationship of legal theory and the social sciences: 1. methodological disputes and collaboration; 2. common problems, especially as they concern different modes of explanation of social behaviour; and 3. common objects, including most prominently the study of language in its social context and normative pluralism.

The Methodology of Legal Theory Michael Giudice, Wil Waluchow, 2017-07-05

The last decade has witnessed a particularly intensive debate over methodological issues in legal theory. The publication of Julie Dickson's *Evaluation and Legal Theory* (2001) was significant, as were collective returns to H. L. A. Hart's *Postscript to The Concept of Law*. While influential articles have been written in disparate journals, no single collection of the most important papers exists. This volume, the first in a three-volume series, aims not only to fill that gap but also propose a systematic agenda for future work. The editors have selected articles written by leading legal theorists, including among others Leslie Green, Brian Leiter, Joseph Raz, Ronald Dworkin, and William Twining, and organized under four broad categories: 1. problems and purposes of legal theory; 2. the role of epistemology and semantics in theorising about the nature of law; 3. the relation between morality and legal theory; and 4. the scope of phenomena a general jurisprudence ought
