## Contemporary Philosophy And Its Origins:

Introduction to the History of Modern Philosophy Arthur Stone Dewing, 1903      Course of the History of Modern Philosophy Victor Cousin, 1872      **History of Philosophy: History of modern philosophy. With additions by the translator, an appendix of English and American philosophy by Noah Porter, and an appendix on Italian philosophy by Vincenzo Botta** Friedrich Ueberweg, 1873      *The History of Philosophy: Ancient philosophy.- Vol. 2. Modern philosophy* George Henry Lewes, 1871      The Origins of Contemporary Psychology Désiré Mercier, 1918      *History of Modern Philosophy* Kuno Fischer, 1887      A History of Philosophy: History of modern philosophy Friedrich Ueberweg, 1874      **Philosophy and Its History** Mogens Lærke, Justin E. H. Smith, Eric Schliesser, 2013-06-14 This volume collects contributions from leading scholars of early modern philosophy from a wide variety of philosophical and geographic backgrounds The distinguished contributors offer very different competing approaches to the history of philosophy Many chapters articulate new detailed methods of doing history of philosophy These present conflicting visions of the history of philosophy as an autonomous sub discipline of professional philosophy Several other chapters offer new approaches to integrating history into one s philosophy by re telling the history of recent philosophy A number of chapters explore the relationship between history of philosophy and history of science Among the topics discussed and debated in the volume are the status of the principle of charity the nature of reading texts the role of historiography within the history of philosophy the nature of establishing proper context      **Models of the History of Philosophy: From its Origins in the Renaissance to the 'Historia Philosophica'** Francesco Bottin, Giovanni Santinello, 1993-08-31 This volume grew out of a conference held at the Warburg Institute of London in June 1989 in memory of Charles B Schmitt The topic one to which he had given much thought was the ways knowledge changed from the Renaissance to the Enlightenment in terms of how it was classified how it was transformed in science philosophy and theology and how it was institutionalized and how it was distributed Contributions by an international group of scholars Grazia Tonelli Claire J Farago Charles Lohr Allison Coudert Nicholas Jardine Lynn S Joy Robert Black Susanna Akerman Michael Hunter and Jeremy D Popkin treat different aspects of the topic The editors Donald R Kelley and Richard H Popkin have added an introduction and an epilogue      **History of Philosophy: History of modern philosophy. With additions by the translator, an appendix on English and American philosophy by Noah Porter, and an appendix on Italian philosophy by Vincenzo Botta** Friedrich Ueberweg, 1876      *History of Modern Philosophy from Nicolas of Cusa to the Present Time* Richard Falckenberg, 1893      *Platonism at the Origins of Modernity* Douglas Hedley, Sarah Hutton, 2007-12-22 commentary but by selection and accretion Those inspired by Plato form as intrinsic a part of Platonism as Plato himself these are the so called Neo P tonists a divisive latter day term which implies discontinuity between Plato and 6 his later followers to the disadvantage of the latter In the process of its long course of development Platonism has gathered a long tradition of interpreters whose contributions have been enriched by other

philosophical strands for example Stoicism which is an important element in the philosophy of Plotinus To this it must be added that so much of the impact of Platonism is indirect The Platonism of many thinkers especially in medieval times was more often than not implicit rather than conscious borrowing It derived not from the Platonic corpus most of which was unknown at that time but indirectly through Philo and theologians like Augustine and Origen The combined effect of these factors is that the legacy of Platonism is rich varied and extensive but eludes the scope of focused enquiry A further factor complicating assessments of Platonism in the modern era is polarisation in the historiography itself Historians of modern philosophy at least in the anglophone world readily adopt a model which counterposes ancient and modern Drawing on a division which the early modern philosophers themselves invoked they employ an ancient / modern distinction as a principle for organising the history of philosophy

**The Origins of the Idea of Scientific Progress** Daniel Špelda, 2024-06-21 This volume offers a new interpretation of the genesis of the idea of scientific progress in early modern science and philosophy The interpretation argues that the idea of scientific progress was not a historical category but an epistemological one The main thesis of the book posits that the idea of scientific progress was a methodological means of dealing with the contingency of nature To illustrate the novelty of the idea the individual chapters compare several features of Renaissance natural philosophy with a new regime of knowledge that included time as an inevitable factor of empirical research The temporal regime of knowledge is illustrated by the work of Bernard de Fontenelle and his colleagues at the Acad mie des sciences in Paris at the end of the 17th century The new interpretation remedies a gap in recent scholarship where the idea of scientific progress has been overlooked even though the early modern natural philosophers themselves used it to describe the nature of their research The book places both well known texts and less studied documents in a new light thus contributing to the lively and rich debate on the origins and nature of early modern science and philosophy It is of interest to scholars studying the history of early modern philosophy and science

**Encyclopedia of Early Modern Philosophy and the Sciences** Dana Jalobeanu, Charles T. Wolfe, 2022-08-27 This Encyclopedia offers a fresh integrated and creative perspective on the formation and foundations of philosophy and science in European modernity Combining careful contextual reconstruction with arguments from traditional philosophy the book examines methodological dimensions breaks down traditional oppositions such as rationalism vs empiricism calls attention to gender issues to insiders and outsiders minor figures in philosophy and underground movements among many other topics In addition and in line with important recent transformations in the fields of history of science and early modern philosophy the volume recognizes the specificity and significance of early modern science and discusses important developments including issues of historiography such as

historical epistemology the interplay between the material culture and modes of knowledge expert knowledge and craft knowledge This book stands at the crossroads of different disciplines and combines their approaches particularly the history of science the history of philosophy contemporary philosophy of science and intellectual and cultural history It brings together over 100 philosophers historians of science historians of mathematics and medicine offering a comprehensive view of early modern philosophy and the sciences It combines and discusses recent results from two very active fields early modern philosophy and the history of early modern science Editorial Board EDITORS IN CHIEF Dana Jalobeanu University of Bucharest Romania Charles T Wolfe Ghent University Belgium ASSOCIATE EDITORS Delphine Bellis University Nijmegen The Netherlands Zvi Biener University of Cincinnati OH USA Angus Gowland University College London UK Ruth Hagengruber University of Paderborn Germany Hiro Hirai Radboud University Nijmegen The Netherlands Martin Lenz University of Groningen The Netherlands Gideon Manning CalTech Pasadena CA USA Silvia Manzo University of La Plata Argentina Enrico Pasini University of Turin Italy Cesare Pastorino TU Berlin Germany Lucian Petrescu Universit Libre de Bruxelles Belgium Justin E H Smith University de Paris Diderot France Marius Stan Boston College Chestnut Hill MA USA Koen Vermeir CNRS SPHERE Universit de Paris France Kirsten Walsh University of Calgary Alberta Canada

*African Philosophical Illuminations* John Murungi, 2017-03-21 The illumination of African philosophy offered in this volume leads to the illumination of philosophy in general Illuminating arises as an essential task of philosophy whether African or not What is illuminated is not already there but is constituted at the moment of illumination This book invites the reader to participate in the illuminating work of philosophy and necessarily thereby to contribute to his or her own self constituting self illumination Although the focus is on African philosophy the book also bridges the gap between African philosophy and other branches Today more than ever a bridging philosophy is called for and this book helps to meet that need This book poses philosophical questions such as who is an African and what Africa is and seeks philosophical answers In doing so it contributes to the ongoing discourse on African philosophy It addresses such issues as the African grounding of philosophy the difference between African and Black philosophy the African body African art as expressed in and by Chiwara the plight of African trees as the plight of Africans and the symbolic meaning of Robben Island

*A History of Literary Criticism in the Renaissance* Joel Elias Spingarn, 1899 An essay examining the history of literary criticism in the Renaissance with a focus on the sixteenth century Divided into three sections devoted to Italian criticism from Dante to Tasso French criticism from Du Bellay to Boileau and English criticism from Ascham to Milton This study traces the origin of modern criticism to the critical activities of Italian humanism
