This unique series uses high interest readings at a controlled reading level and an eye-catching design to capture key historical themes and events of the 20th century. Literary Experiments in Magazine Publishing Thomas Lloyd Vranken, 2019-09-03 As the nineteenth century came to an end a number of voices within the British and American magazine industries pushed back against serialisation as the dominant publication mode experimenting instead with less conventional magazine formats. This book explores these formats focusing in particular on the ways in which the periodical press first published *The Adventures of Huckleberry Finn*, *The Picture of Dorian Gray* and *The Return of Sherlock Holmes*. What led magazines to publish excerpts from a forthcoming book or an entire novel in a single issue or a discontinuous short story series? How did these experimental modes affect the act of reading? Drawing on a range of archival and other primary sources *Literary Experiments in Magazine Publishing: Beyond Serialization* addresses these and other questions. *Library Journal*, 1992. *The Cumulative Book Index*, 1930. *Whitaker's Cumulative Book List*, 1930. Choral Music by African-American Composers, 1996-04-09 Lists and describes approximately 1,600 published and unpublished choral works by more than 100 African American composers and arrangers. 600 more works than the first edition. Many of these works representing all styles from simple four part settings to avant garde pieces have not been performed before because of the difficulty in locating them. White's bibliography provides a useful tool for busy conductors wishing to perform music by African American composers and serves as an incentive to choral conductors to program little known composers as well as unknown works by established musicians. Arrangement is by composer. Entries list number of pages voicing and solo requirements vocal ranges degree of difficulty a cappella or type of accompaniment publishers and catalog number. Also included are a title index a listing of selected collections of Negro spirituals biographical sketches of African American composers and arrangers and three appendixes selected source readings selected discography and addresses of publishers and composers. **Subject Guide to Books in Print**, 1984.
