Context Of Language Teaching:

Discourse and Context in Language Teaching Marianne Celce-Murcia, Elite Olshtain, 2000 Discourse and Context in Language Teaching A Guide for Language Teachers is part of the Cambridge Handbooks for Language for Language Teachers series **Teaching Language in Context** Alice Omaggio Hadley, 1993 Seeks to assist readers interested in classroom language learning in the process of clarifying their own beliefs about language teaching and learning

Understanding Context in Language Use and Teaching Éva Illés, 2020-05-06 This book is a guide to understanding and applying the essential heretofore elusive notion of context in language study and pedagogy va Ill s offers a new critical systematic theoretical framework then applies that framework to practical interactions and issues in communicative language teaching rooted in English as a Lingua Franca By linking theory and practice for research and teaching around the world this book brings a new awareness of how context can be conceptualised and related to language pedagogy to advanced students teachers teacher educators and researchers of language teaching applied linguistics and pragmatics **Context and Culture in Language Teaching and Learning** Michael Byram, Peter Grundy, 2003 The chapters in this book all

address the significance of the relationship between the aims and methods of language teaching and the contexts in which it takes place Some consider the implications for the ways in which we research language teaching others present the results of research and development work **Understanding Language Classroom Contexts** Martin Wedell, Angi Malderez, 2013-04-11 Arguably the whole point of education is to effect change in what people know and are able to do Globalization has contributed to a common perception worldwide of the need to introduce changes to the teaching and learning of languages The success of many attempts to do so has been limited by insufficient consideration of implementation contexts Understanding Language Classroom Contexts explores and illustrates how what happens in any language classroom is influenced by and can be an influence on the contexts in which it is situated A clear understanding of these influences is thus the starting point for planning effective change The book considers many visible and invisible features of the multiple layers of any context and provides a framework for understanding the types of factors that may influence whether changes planned by a teacher or externally initiated are likely to be successful The book will help teachers and educational managers or change planners outside the classroom to understand why their classrooms are as they are and so to make informed decisions about what can or cannot or not easily be changed and suggests how any changes might be appropriately managed

The Context of Language Teaching Jack C. Richards, 1985-04-26 This is an important collection of papers by a distinguished personality in the field Topics covered include second language acquisition syllabus design methodology and methods listening speaking vocabulary and grammar Issues in applied linguistics are summarised and presented with clarity and their practical implications explored thus making the vital connection between theory and practice in language teaching Language teachers and students of applied linguistics will find this collection contains a wide range of recent work in

linguistics presented in a lucid and highly accessible form Contexts of Competence Margie Berns, 2013-06-29 The introduction of communicative competence as the goal of second and for eign language teaching has led to recognition of the role of context in language learning and use As communicative competence is defined by the social and cultural contexts in which it is used no single communicative competence can serve as the goal and model for all learners This recognition has had an impact on program design and materials development One significant change is that the choice of a teaching method is no longer the primary concern Instead the first step for the program designer is becoming familiar with the social and cultural features of the context of the language being taught This includes a consideration of the uses speakers make of the language their reasons for using it and their attitudes toward it Contexts of Competence Social and Cultural Considerations in Commu nicative Language Teaching explores the relationship between context and com petence from a theoretical and practical perspective Its audience is applied linguists in general and language teaching practitioners in particular The overall aim of its five chapters is to provide a framework for consideration of various contexts of language learning and use and to guide the implementation and development of models of communicative language teaching that are responsive to the context specific needs of learners The Handbook of Language Teaching Michael H. Long, Catherine J. Doughty, 2011-08-15 Bringing together an international and interdisciplinary team of contributors this Handbook is a wide ranging and invaluable reference guide to language teaching A comprehensive reference work on language teaching which combines the latest research findings coverage of core topics and examples of teaching experience from a variety of languages and settings Provides a unique breadth of coverage including the psycholinguistic underpinnings of language learning social political and educational contexts program design materials writing and course design teaching and testing teacher education and assessment and evaluation Offers a balanced evaluation of the major positions and approaches including examining the increasingly important social and political context of language teaching Written by an international and interdisciplinary group of authors from a dozen different countries English is only one of the many languages used as examples throughout the volume **The Context of Foreign Language Teaching** Leon A. Jakobovits, Barbara Gordon, 1974 This book applies sociolinguistics or sociology to the problem of teaching foreign languages The authors use a method they call Transactional Engineering Analysis employing the findings of sociology to the teaching of the basic skills in language learning This method uses pattern practices to synthesize the elements of pronunciation vocabulary and sentence pattern recognition to allow language learners to absorb the rules governing conversational interchanges in the subject language The appendices include examples of the patterns illustrated in the preceding text **TEACHING ENGLISH IN GLOBAL CONTEXTS: Language, Learners and Learning** Valentina Canese, Susan Spezzini, 2023-11-07 **Methods and Methodologies for Language Teaching** Andy Curtis, 2017-05-31 An essential guide for pre service and in service English language teachers There are countless theories and approaches to language teaching and with so many different methodologies available it can be

difficult for teachers to weigh up the pros and cons of each or even to know where to start Written by an experienced teacher and researcher *Methods and Methodologies for Language Teaching* takes a fresh look at ten approaches to classroom language teaching and learning Each chapter includes suggested activities and further reading presenting the origins and key features of each methodology before discussing its relation to assessment and learning outcomes This is a clear concise and context driven introduction to teaching methods which reasserts the significance of methodology as a central pillar of language learning

Beyond the Boundaries: Changing Contexts in Language Learning Roberta Lavine, 2001-03-15 McGraw Hill World Languages is pleased to announce our collaboration with the Northeast Conference on the Teaching of Foreign Languages in the publication of their annual conference report commencing with the 2001 report The chapters in *Beyond the Boundaries* reflect and comment on the new contexts for language learning that continue to emerge in this country These changes motivated by factors such as changing societal attitude towards language learning globalization of U S economy and increased global awareness include a growing interest in study abroad opportunities community based outreach programs and life long learning *Beyond the Boundaries* is ideal for use in teacher education and methods courses or for undergraduate and graduate seminars that deal with issues in language education or language acquisition

Teacher Learning in Language Teaching Donald Freeman, Jack C. Richards, 1996-02-23 This book introduces a new field of educational research called teacher learning as it applies to the teaching of languages Up until recently the study of second language teacher education has focused mainly on the knowledge base and specific skills needed for effective teaching This book invites us to look at teacher education from a fresh point of view through an exploration of the thinking and learning processes of individuals as they learn to teach Seventeen original articles based on studies done in North America Europe Asia and Australia provide examples of pioneering research into the ways that individuals learn to teach languages and the roles that previous experience social context and professional training play in the process The collection thus helps establish a research base for this newly developing field

The Role of Context in Language Teachers' Self Development and Motivation Amy S. Thompson, 2021 This book unpacks data from conversations with bi multilingual EFL teachers to provide insights into the formation of ideal teacher selves The author discusses the complexities surrounding the development of the teachers selves and motivation as well as their intertwinement with the sociopolitical realities of their individual contexts

The Definition of Context and Its Implications for Language Teaching Illés Éva, 2001

Context in Language Learning and Language Understanding Kirsten Malmkjær, John Williams, 1998-10-08 The papers in this volume represent varied views on the role of context in language learning

Language, Learning, Context Wolff-Michael Roth, 2010-06-10 In what way do educators understand the language they use to make sense of the educational environment How does language enable educators and how can they consciously make the most of its potential Using the right language and setting the correct tone in the school classroom has

repercussions for all involved whether it affects the linguistic development of a student or the effective delivery of a lesson language plays an important factor in any educational context As such this innovative book focuses right at the heart of learning arguing that current theories of speech in classrooms do not and cannot capture the essentially passive aspects of talking Until now these verbal and physical expressions of communication have been left untheorised leaving the potential of an entire secondary area of language untapped Exploring his argument along three clear but interrelated lines of investigation the author focuses on our understanding on language itself and finally on communication Thus he argues that language is unintentional and our understanding of it is limited as soon as we speak language appears beyond us in a highly singular situated context that communication cannot be reduced to the simple production of words Building on the work of linguistic philosophers such as Martin Heidegger Donald Davidson Paul Ric ur and Jacques Derrida these salient points are further elaborated to fully develop the relationship between thinking and talk in educational settings This invaluable book makes recommendations for the praxis of teaching and will appeal to students researchers and practising science and mathematics teachers as well as those with interests in language and literacy

English Language Teaching and its Impact on Cultural Identity of High School Students in Morocco. A Case Study at the Lycée Mohammed VI d'Excellence Adil Faouzi,2023-08-23 Bachelor Thesis from the year 2023 in the subject English Language and Literature Studies Culture and Applied Geography grade 16 20 Sultan Moulay Sliman University Ecole Sup rieuse de l Education et de la Formation course Immersion internship in the school 2 and Research Paper PFE language English abstract This thesis investigates the influence of English language teaching as a language of globalization on the cultural identity of high school students in Morocco Against a backdrop of a complex linguistic landscape this study navigates the intricacies of language culture and education aiming to contribute to the ongoing discourse surrounding the role of English in a globally connected world A mixed methods approach comprising a questionnaire for students and interviews with teachers from Le Lyc e Mohammed VI

d Excellence in Morocco is utilized for a comprehensive exploration of the research question While the majority of students reported no direct impact of English language teaching on their cultural identity a subtle layered influence was observed through their adoption of Western cultural norms On the other hand teachers displayed an acute awareness of the significant influence of globalization on teaching English emphasizing the intricate link between language and culture They highlighted the role of English as a conduit for intercultural communication and as a critical tool for fostering cultural understanding The findings signal both challenges and opportunities reinforcing the essential role of teachers in facilitating language learning and intercultural competence in an interconnected educational landscape This monograph underscores the need for further research to delve into the subtleties of students perceptions and to navigate the complexities inherent in teaching English in a globalized environment ultimately aiming to offer empirical and theoretical contributions that inform policy and practice in the field of English language teaching
