Contextualizing Secession Normative Studies In Comparative Perspective

Bruno Coppieters, Richard Sakwa

Contextualizing Secession Normative Studies In Comparative Perspective:

Contextualizing Secession Bruno Coppieters, Richard Sakwa, 2003 **Secession as an International Phenomenon** Don Harrison Doyle, 2010 About half of today's nation states originated as some kind of breakaway state The end of the Cold War witnessed a resurgence of separatist activity affecting nearly every part of the globe and stimulated a new generation of scholars to consider separatism and secession With the approach of the 150th anniversary of the American Civil War this collection of essays allows us to view one of the bloodiest conflicts over secession in modern history within a broader international context The contributors to this volume consider a wide range of topics related to secession separatism and the nationalist passions that inflame such conflicts The first section of the book examines ethical and moral dimensions of secession while subsequent sections look at the American Civil War conflicts in the Gulf of Mexico European separatism and conflicts in the Middle East Asia and Africa The contributors to this book have no common position advocating or opposing secession in principle or in any particular case All understand it however as a common feature of the modern world and as a historic phenomenon of international scope Some contributors propose that political divorce as secession has come to be called ought to be subject to rational arbitration and ethical norms instead of being decided by force Along with these hopes for the future *Secession as an International Phenomenon* offers a somber reminder of the cost the United States paid when reason failed and war was left to resolve the issue *Secessionist Entities and International Law* Benedikt C. Harzl, 2025-03-20 This book examines secessionist entities that arose during and after the dissolution process of the USSR and considers them as legal subjects in their own right By employing a novel and more innovative approach the agency of these subjects otherwise often ignored or disregarded is taken into account Drawing on the cases of the South Caucasus the author suggests going beyond the binary concept of statehood and traditional notions of sovereignty He advocates embracing an inclusive reading of international law which enables to foster creative ambiguity vis vis these entities as means of conflict transformation *Creating New States* Peter Radan, 2007-01-01 This key volume examines the political social and legal processes of the practice of secession carefully illustrated by eight case studies It systematizes our present knowledge of secession in an accessible way to readers not familiar with the phenomenon and its consequences **Modernity and Secession** Michel Huysseune, 2006 The author provides a new systematic and interdisciplinary approach that reinterprets the premises behind Italy's imagined geography or modernity Jacket **The Routledge Handbook of Self-Determination and Secession** Ryan D. Griffiths, Aleksandar Pavković, Peter Radan, 2023-02-28 The Routledge Handbook of Self Determination and Secession explores the various debates surrounding the issues of self determination and secession and the legal political and normative implications they give rise to Offering a broad survey of the state of the sub discipline today the chapters are divided into seven key parts an Introduction Self Determination Explaining and Justifying Secession Secession Strategies Counter Secession Strategies International Law and Secession and Constitutional Law and Secession The authors

from a range of disciplinary backgrounds explore all the recent approaches to secession and self determination based on strategic interaction of major actors in a secession process This handbook will be of great interest to students and researchers from a variety of disciplines including politics and international relations security studies and law

Contested Secessions Neera Chandhoke,2011-12-26 This book approaches contested secession and the more Western concept of consensual secession from a political theory perspective In particular it focuses on the Kashmir issue as a form of contested secession and examines whether the Kashmiri people have a right to secede

Contested States in World Politics D. Geldenhuys,2009-04-22 This book investigates a phenomenon in world politics that is largely overlooked by scholars namely entities lacking international recognition of their status as independent states It includes case studies on the Eurasian Quartet Kosovo Somaliland Palestine Northern Cyprus Western Sahara and Taiwan

Between Civic and Ethnic Xiaokun Song,2009 In a descriptive analysis of elitist nationalist ideologies in Taiwan this study challenges the traditional Western distinction between civic nationalism and ethnic nationalism Instead this discussion contends that the fluid historical context must always be taken into account An overview of nationalist unrest in Taiwan over a century includes Japanese colonization 1895 1945 four decades of martial law 1945 1985 and afterwards 1986 2000

The EU and Georgia Bruno Coppieters,2007 *Nordic Journal of International Law* ,2004

Statehood and Security Bruno Coppieters,Robert Legvold,2005 Analyzes security challenges facing Georgia since a more democratic government took over in 2003 including secessionist crises within its borders and regional instability in the Caucasus

Studia diplomatica ,2006 **Slavic Review** ,2004 American quarterly of Soviet and East European studies varies

Professional Ethics ,2002 Media Asia ,2007 **Zur**

Konstruktion einer Region Leena-Kaarina Williams,2007 Economic and Political Weekly ,2004-03 *American Book Publishing Record* ,2004

Guide to Indian Periodical Literature ,2004

Contextualizing Secession Normative Studies In Comparative Perspective Book Review: Unveiling the Magic of Language

In an electronic era where connections and knowledge reign supreme, the enchanting power of language has become much more apparent than ever. Its ability to stir emotions, provoke thought, and instigate transformation is actually remarkable. This extraordinary book, aptly titled "**Contextualizing Secession Normative Studies In Comparative Perspective**," compiled by a very acclaimed author, immerses readers in a captivating exploration of the significance of language and its profound effect on our existence. Throughout this critique, we will delve into the book's central themes, evaluate its unique writing style, and assess its overall influence on its readership.
