Continental Crossroads:

Continental Crossroads Samuel Truett, Elliott Young, 2004 Focuses on the modern Mexican American borderlands where a boundary line seems to separate two dissimilar cultures and economies *Smugglers, Brothels, and Twine* Elaine Carey, Andrae M. Marak, 2011-11-01 In this volume the borders of North America serve as central locations for examining the consequences of globalization as it intersects with hegemonic spaces and ideas national territorialism and opportunities for or restrictions on mobility The authors of the essays in this collection warn against falling victim to the myth of nation states engaging in a valiant struggle against transnational flows of crime and vice They take a long historical perspective from Mesoamerican counterfeits of cacao beans used as currency to cattle rustling to human trafficking from Canada's and Mexico's different approaches to the illegality of liquor in the United States during Prohibition to contemporary case studies of the transnational movement of people crime narcotics vice and even ideas By studying the historical flows of contraband and vice across North American borders the contributors seek to bring a greater understanding of borderlanders the actual agents of historical change who often remain on the periphery of most historical analyses that focus on the state or on policy To examine the political economic and social shifts resulting from the transnational movement of goods people and ideas these contributions employ the analytical categories of race class modernity and gender that underlie this evolution Chapters focus on the ways power relations created opportunities for engaging in deviance thus questioning the constructs of economic reality versus concepts of criminal behavior Looking through the lens of transnational flows of contraband and vice the authors develop a new understanding of nation immigration modernization globalization consumer society and border culture

Fugitive Landscapes Samuel Truett, 2008-09-02 Published in Cooperation with the William P Clements Center for Southwest Studies In the nineteenth and early twentieth centuries Mexicans and Americans joined together to transform the U S Mexico borderlands into a crossroads of modern economic development This book reveals the forgotten story of their ambitious dreams and their ultimate failure to control this fugitive terrain Focusing on a mining region that spilled across the Arizona Sonora border this book shows how entrepreneurs corporations and statesmen tried to domesticate nature and society within a transnational context Efforts to tame a wild frontier were stymied by labor struggles social conflict and revolution *Fugitive Landscapes* explores the making and unmaking of the U S Mexico border telling how ordinary people resisted the domination of empires nations and corporations to shape transnational history on their own terms By moving beyond traditional national narratives it offers new lessons for our own border crossing age **Working Women into the Borderlands** Sonia Hernández, 2014-02-18 In *Working Women into the Borderlands* author Sonia Hernández sheds light on how women's labor was shaped by US capital in the northeast region of Mexico and how women's labor activism simultaneously shaped the nature of foreign investment and relations between Mexicans and Americans As capital investments fueled the growth of heavy industries in cities and ports such as Monterrey and Tampico women's work

complemented and strengthened their male counterparts labor in industries which were historically male dominated As Hernandez reveals women laborers were expected to maintain their proper place in society and work environments were in fact gendered and class based Yet these prescribed notions of class and gender were frequently challenged as women sought to improve their livelihoods by using everyday forms of negotiation including collective organizing labor arbitration boards letter writing creating unions assuming positions of confianza trustworthiness and by migrating to urban centers and crossing into Texas Drawing extensively on bi national archival sources newspapers and published records Working Women into the Borderlands demonstrates convincingly how women s labor contributions shaped the development of one of the most dynamic and contentious borderlands in the globe King's Official Route Guide ,1915 **Bridging National Borders in North America** Benjamin Johnson,Andrew R Graybill,2010-04-07 A collection of essays by historians of the Canadian U S border region and those focused on the Mexican U S border examining borderlands events and phenomena from the mid nineteenth century through the mid twentieth *Catholic Borderlands* Anne M. Martinez,2014-10-01 In 1905 Rev Francis Clement Kelley founded the Catholic Church Extension Society of the United States of America Drawing attention to the common link of religion Kelley proclaimed the Extension Society s duty to be that of preventing American Protestant missionaries public school teachers and others from separating people from their natural faith Catholicism Though domestic evangelization was its founding purpose the Extension Society eventually expanded beyond the national border into Mexico in an attempt to solidify a hemispheric Catholic identity Exploring international racial and religious implications Anne M Mart nez s Catholic Borderlands examines Kelley s life and actions including events at the beginning of the twentieth century that prompted four exiled Mexican archbishops to seek refuge with the Archdiocese of Chicago and befriend Kelley This relationship inspired Kelley to solidify a commitment to expanding Catholicism in Mexico Puerto Rico and the Philippines in response to the national plan of Protestantization which was indiscreetly being labeled as Americanization Kelley s cause intensified as the violence of the Mexican Revolution and the Cristero Rebellion reverberated across national borders Kelley s work with the U S Catholic Church to intervene in Mexico helped transfer cultural ownership of Mexico from Spain to the United States thus signaling that Catholics were considered not foreigners but heirs to the land of their Catholic forefathers
