Poets, Players, and Preachers Anne James, 2016-01-01
On the night of November 4th 1605 the English authorities uncovered an alleged plot by a group of discontented Catholics to blow up the Houses of Parliament with the lords princes queen and king in attendance The failure of the plot is celebrated to this day and is known as Guy Fawkes Day In *Poets Players and Preachers* Anne James explores the literary responses to the discovery of the Gunpowder Plot in poetry drama and sermons This book is the first full length study of the literary repercussions of the conspiracy By analyzing the genres of poems plays and sermons produced between 1605 and 1688 the author argues that not only did the continuous reinterpretation of the conspiracy serve religious and political purposes but that such literary reinterpretations produced generic changes

The Prose Style of Lancelot Andrewes' Holy Day Sermons
Ruth Yzenbaard Reed, 1973 **Literary Culture in Jacobean England** P. Salzman, 2002-09-06 This book offers an unparalleled depth of historical research by surveying the extraordinary richness of literary culture in a single year Paul Salzman examines what is written published performed and in some cases even spoken during 1621 in Britain Well known works by writers such as Donne Burton Middleton and Raleigh are examined alongside hitherto unknown works in a huge variety of genres plays poems romances advice books sermons histories parliamentary speeches royal proclamations This is a work of literary history that greatly enhances knowledge of what it was like to read write and listen in early modern Britain

John Donne's Divine Poems: Another Dimension Mary Samuel Conlan, 1963 **Confessions of Faith in Early Modern England** Brooke Conti, 2014-01-18 As seventeenth century England wrestled with the aftereffects of the Reformation the personal frequently conflicted with the political In speeches political pamphlets and other works of religious

controversy writers from the reign of James I to that of James II unexpectedly erupt into autobiography John Milton famously interrupts his arguments against episcopacy with autobiographical accounts of his poetic hopes and dreams while John Donne's attempts to describe his conversion from Catholicism wind up obscuring rather than explaining Similar moments appear in the works of Thomas Browne John Bunyan and the two King Jameses themselves These autobiographies are familiar enough that their peculiarities have frequently been overlooked in scholarship but as Brooke Conti notes they sit uneasily within their surrounding material as well as within the conventions of confessional literature that preceded them *Confessions of Faith in Early Modern England* positions works such as Milton's political tracts Donne's polemical and devotional prose Browne's *Religio Medici* and Bunyan's *Grace Abounding to the Chief of Sinners* as products of the era's tense political climate illuminating how the pressures of public self-declaration and allegiance led to autobiographical writings that often concealed more than they revealed For these authors autobiography was less a genre than a device to negotiate competing political personal and psychological demands The complex works Conti explores provide a privileged window into the pressures placed on early modern religious identity underscoring that it was no simple matter for these authors to tell the truth of their interior life even to themselves

Travel Literature and the Evolution of the Novel Percy G. Adams, 2014-07-15 Although much has been written about how the novel relates to the epic the drama or autobiography no one has clearly analyzed the complex connections between prose fiction as it evolved before 1800 and the literature of travel which by that date had a long and colorful history Percy Adams skilfully portrays the emergence of the novel in the fiction of the seventeenth and eighteenth centuries and traces in rich detail the history of travel literature from its beginnings to the time of James Cook contemporary of Richardson and Fielding And since the *recit de voyage* and the novel were then so international he deals throughout with all the literatures of Western Europe one of the book's chief themes being the close literary ties among European nations Equally important in the present study is its demonstration that just as early travel accounts were often a combination of reporting and fabrication so prose fiction is not a dichotomy to be divided into the adult novel on the one hand and the childish romance on the other but an ambivalence the marriage of realism and romanticism *Travel Literature and the Evolution of the Novel* not only shows the novel to be amorphous and changing it also proves impossible the task of defining the *recit de voyage* with its thousand forms and faces Often the two types of literature are almost indistinguishable even before *Don Quixote* Adams writes many travel accounts could have been advertised as having the endless fascination of a wonderfully observed novel This study by Percy Adams will both modify opinions about the novel and its history and provide an excellent introduction to the travel account a form of literature too little known to students of *belles lettres*

[Telling Tears in the English Renaissance](#) Marjory E. Lange, 2021-12-06 Tears and weeping are at once human universals and socially constrained phenomena This volume explores the interface between those two viewpoints by examining medical literature sermons and lyric poetry of the 16th and 17th centuries to see how dominant paradigms

regarded who could who must and who must not weep These paradigms shifted in some cases radically during these centuries Without a clear understanding of how the Renaissance read tears it is difficult to avoid using our own preconceptions often quite different and very misleading There are five chapters one on medical and scientific material two on sermons and two on different types of lyric
