J. Szwedek, Barbara Płoczińska, 1986 Papers and Studies in Contrastive Linguistics, 1994 Vol 1 contains papers delivered at the 2d Karpacz Conference on Contrastive Linguistics 1971 **Sociolinguistics / Soziolinguistik. Volume 2** Ulrich Ammon, Norbert Dittmar, Klaus J. Mattheier, Peter Trudgill, 2008-07-14 No detailed description available for SOCIOLINGUISTICS AMMON 2 TLBD HSK 3 2 2A E BOOK Contrastive Linguistics Wenguo Pan, Tham Wai Mun, 2007-07-10 Contrastive Linguistics is the first book written by a linguist from mainland China on the histories and principles of comparing and contrasting Chinese and Western languages specifically English From Wilhelm von Humboldt's initial study in comparative linguistics to the present day traditional scholarship in contrastive linguistics has taken a Western perspective and shown how foreign languages relate to the Indo-European language family However such a view has a limited scope and there is an alternative history to contrastive linguistics This book is an attempt by Professor Wenguo Pan to redress the balance in contrastive linguistics comparing Western languages to Chinese rather than vice versa He provides a survey of contrastive linguistics in China throughout the past century and aims to open a window for the world to see what the new generations of Chinese linguists are doing in this exciting field and to start a dialogue between scholars of different backgrounds and linguistic traditions Contrastive Linguistics looks at the history of this discipline both in Europe and in China Professor Pan presents a survey of the historical philosophical and methodological foundations of the discipline but also examines its scope in relation to general comparative anthropological and applied linguistics This book will be of interest to academics interested in a new perspective on contrastive linguistics or Chinese linguistics Reviewing Linguistic Thought Sophia S. A. Marmaridou, Kiki Nikiforidou, Eleni Antonopoulou, 2005 The volume focuses on the interaction of different levels of linguistic analysis syntax

semantics pragmatics and the interfaces between them on the convergence of different theoretical models in explaining linguistic phenomena and on recent interdisciplinary approaches to linguistic analysis Its theoretical importance lies in bringing out and highlighting some of the common trends and directions found in recent theoretical frameworks which focus on themes traditionally downplayed by mainstream 20th century linguistics It further familiarizes the reader with the methodology used in such frameworks and shows how methodology developed in different theoretical perspectives can often converge in yielding similar results While representing different traditions all papers in this volume assume a necessity for the study of language to be paired with the study of cognition and for linguistics to develop more substantive links to other disciplines thereby creating converging trends into the new century The structure of this volume reflects this assumption along a cline of theoretical models and methodologies starting from those that view language as part of cognition and ending with those that consider the language faculty to be distinct from general cognition Thus the volume is divided into five parts I relaxing level boundaries II focusing on level interaction III drawing on different theories IV exploring field interaction and V interdisciplinary perspectives on modularity The volume is of particular relevance to scholars and students who are interested in an in depth overview of 20th century linguistics outside beyond the generative paradigm and in exploring the development of 20th century legacy into current work

Friendly Metaphors Ewa Wełnic, Jacek Fisiak, 2008 This is a collection of essays to celebrate 45 years of Professor Aleksander Szwedek s academic endeavour and his impressive contribution to the development of linguistics in Poland and abroad The articles seek to represent an eclectic range of topics in linguistics literature and cultural studies They reflect the versatile and influential nature of Professor Szwedek s work and have been contributed by colleagues and former pupils now active in a variety of academic fields within English studies All have been inspired in various ways by the work and teaching of Aleksander Szwedek

Academic Writing and Reader Engagement Niall Curry, 2021-06-28 Academic Writing and Reader Engagement offers a concise linguistic description of the use and functions of questions in English French and Spanish and discusses their value to the teaching of academic writing This book Enables a better understanding of how writers engage readers in academic writing in English French and Spanish and where each language behaves similarly or differently Explains how authors express opinions organise discourse and create relationships with readers via questions in their academic writing and the various functions questions perform Brings together research on corpus and contrastive linguistics highlighting how these two fields can support one another Offers a thorough investigation of reader engagement markers from a range of linguistic perspectives and considers how knowledge of these markers could be applied to the teaching and learning of academic writing in each language Employs corpus data totalling approximately 1.2 million words from all three languages to illustrate the varying roles and representations of questions in each language Providing an invaluable resource for scholars learning to communicate successfully within their academic community as well as teachers of English French and or Spanish for academic purposes this book is key reading for
