

One of the problems in assessing the Sadat era is the man himself. Prior to becoming president when Gamal Abdul Nasser suddenly died in September 1970, Sadat was not particularly well known. He had survived in Nasser's shadow, one of his fellow revolutionaries from the glory days of 1952, but not a major figure. Within months of coming to power, he was very nearly ousted in a coup attempt mounted by hard-liners within the regime, apparently with Soviet backing. This almost certainly helps explain Sadat's decision to seek a new relationship with Washington and to keep his distance from Moscow, which **reflect clearly how Strategic Thinkers Embrace the Future and New Possibilities with no borders.**

changes in Soviet society the concept of developed socialism presents a picture of political and social modernization that is in many ways the counterpart of the Western theory of post industrial society He also notes a new seemingly more flexible Soviet approach to ideology as such The Soviets he observes look upon the theory of developed socialism itself as being in an evolving state treating it as an open ended model of future economic and social transformation whose outlines are only gradually becoming discernable
