Baltagi,1995 This text provides students with a comprehensive assessment of the latest panel data techniques especially for serial correlation heteroscedasticity simultaneous equations dynamic models and incomplete panels The author proceeds from single to simultaneous equation methods *Econometric Analysis of Panal Data* Badi H. Baltagi,2001-10-31 This new edition of this established textbook reflects the rapid developments in the field covering the vast research that has been conducted on panel data since its initial publication The book is packed with the most recent empirical examples from panel data literature and includes new data sets The use of the standard software packages in the field i e STATA LIMDEP TSP SAS are illustrated with new examples The text has also been fully updated with new material on non stationary models unit roots in panels and cointegration prediction in panels serial

correlation heteroskedasticity and new results on GMM in dynamic panel data models There is also website providing supplementary material for lecturers

Bibliographic Guide to Business and Economics New York Public Library. Research Libraries,1976

The Role of the Academic Economist in Litigation Support Daniel Jonathan Slottje,1999

This book presents a series of chapters by several leading economists on how to perform economic analysis in support of litigation matters For many years academic economists consulted in litigation matters but most did not discuss it as it was regarded as not pure economic research As more national economics consulting firms were established specializing in litigation and primarily made up of academic economists the stigma if ever there was one disappeared More than likely young applied economists will not think twice now about working for a consulting firm or even a consulting firm which specializes in litigation This book examines exactly what forensic economists actually do All the contributors have endeavored to stress the importance of using the economist toolbox properly all with sterling results As young economists contemplate a litigation consulting or any private sector career versus an academic one it is hoped that this book will demonstrate that it is possible to achieve excellence in both fields simultaneously *international journal of forecasting* ,2001
