Contemporary Tibet:

Contemporary Tibet Barry Sautman, June Teufel Dreyer, 2017-03-02 The subject of Tibet is highly controversial and Tibet as a political entity is defined differently from source to source and audience to audience The editors of this path breaking multidisciplinary study have gathered some of the leading scholars in Tibetan and ethnic studies to provide a comprehensive analysis of the Tibet question Contemporary Tibet explores essential themes and issues concerning modern Tibet It presents fresh material from various political viewpoints and data from original surveys and field research The contributors consider such topics as representations and sovereignty economic development and political conditions the exile movement and human rights historical legacies and international politics identity issues and the local society The individual chapters provide historical background as well as a general framework to examine Tibet s present situation in world politics the relationship with China and the West and prospects for the future *Buddhism in Contemporary Tibet* Melvyn C. Goldstein, Matthew T. Kapstein, 2023-09-01 Following the upheavals of the Cultural Revolution the People s Republic of China gradually permitted the renewal of religious activity Tibetans whose traditional religious and cultural institutions had been decimated during the preceding two decades took advantage of the decisions of 1978 to begin a Buddhist renewal that is one of the most extensive and dramatic examples of religious revitalization in contemporary China The nature of that revival is the focus of this book Four leading specialists in Tibetan anthropology and religion conducted case studies in the Tibet autonomous region and among the Tibetans of Sichuan and Qinghai provinces There they observed the revival of the Buddhist heritage in monastic communities and among laypersons at popular pilgrimages and festivals Demonstrating how that revival must contend with tensions between the Chinese state and aspirations for greater Tibetan autonomy the authors discuss ways that Tibetan Buddhists are restructuring their religion through a complex process of social political and economic adaptation Buddhism has long been the main source of Tibetans pride in their culture and country These essays reveal the vibrancy of that ancient religion in contemporary Tibet and also the problems that religion and Tibetan culture in general are facing in a radically altered world Following the upheavals of the Cultural Revolution the People s Republic of China gradually permitted the renewal of religious activity Tibetans whose traditional religious and cultural institutions had been decimated during the preceding two decades Population and Society in Contemporary Tibet Rong Ma, 2011-01-01 This extensive survey documents Tibetan society over five decades including population structure in rural and urban areas marriage and migration patterns the maintenance of language and traditional culture economic transitions relating to income and consumption habits educational development and the growth of civil society and social organizations In addition to household surveys completed over twenty years the book provides a systematic analysis of all available social and census data released by the Chinese government and a thorough review of Western and Chinese literature on the topic It is the first book on Tibetan society published in English by a mainland China scholar and covers several sensitive issues in Tibetan

studies including population changes Han migration into Tibetan areas intermarriage patterns and ethnic relations Ma Rong is a widely respected demographer and professor of sociology at Peking University He spent five years in Inner Mongolia during the Cultural Revolution and was one of the first Chinese students to study in the US after Deng Xiaoping's reforms receiving his doctorate degree from Brown University The academic study of Tibet still suffers from a lack of accurate data and restrictions on access to Tibet for research This very useful analysis will increase the quality of the discussion and help to correct many inaccurate Western impressions of Tibet Gerard Postiglione University of Hong Kong *A History of Modern Tibet, Volume 2* Melvyn C. the period leading to the Tibetan Uprising of 1959 The volume also reassesses issues that have been widely misunderstood as well as stereotypes and misrepresentations in the popular realm and in academic literature such as in Mao s policies on Tibet Volume 4 draws on important new Chinese government documents published and unpublished memoirs new biographies and a large corpus of in depth specially collected political interviews to reexamine the events that produced the March 10th uprising and the demise of Tibet s famous Buddhist civilization The result is a heavily documented analysis that presents a nuanced and balanced account of the principal players and their policies during the critical final two years of Sino Tibetan relations under the Seventeen Point Agreement of 1951 *Proceedings of the Tenth Seminar of the IATS, 2003. Volume 11: Tibetan Modernities* International Association for Tibetan Studies. Seminar,2008-05-31 This book the first scholarly publication in the West to provide detailed documentation of modern life in contemporary Tibet presents the cutting edge field work carried out by an interdisciplinary group of researchers studying caste pop music media painting education economics childbirth and environment in Tibetan communities today **The Making of Modern Tibet** A. Tom Grunfeld,2015-02-24 An account of Tibet and the Tibetan people that emphasises the political history of the 20th century This book attempts to reach beyond the polemics by considering the various historical arguments using archival material from several nations and drawing conclusions focused on available documents *Tibetan Buddhists in the Making of Modern China* Gray Tuttle,2005-04-26 Over the past century and with varying degrees of success China has tried to integrate Tibet into the modern Chinese nation state In this groundbreaking work Gray Tuttle reveals the surprising role Buddhism and Buddhist leaders played in the development of the modern Chinese state and in fostering relations between Tibet and China from the Republican period 1912 1949 to the early years of Communist rule Beyond exploring interactions between Buddhists and politicians in Tibet and China Tuttle offers new insights on the impact of modern ideas of nationalism race and religion in East Asia After the fall of the Qing dynasty in 1911 the Chinese Nationalists without the traditional religious authority of the Manchu Emperor promoted nationalism and racial unity in an effort to win support among Tibetans Once this failed Chinese politicians appealed to a shared Buddhist heritage This shift in policy reflected the late nineteenth century academic notion of Buddhism as a unified world religion rather than a set of competing and diverse Asian religious practices While Chinese politicians hoped to gain Tibetan loyalty through religion the promotion of a shared Buddhist heritage allowed Chinese Buddhists and Tibetan political and religious leaders to pursue their goals During the 1930s and 1940s Tibetan Buddhist ideas and teachers enjoyed tremendous popularity within a broad spectrum of Chinese society and especially among marginalized Chinese Buddhists Even when relationships between the elite leadership between the two nations broke down religious and cultural connections remained strong After the Communists seized control they continued to exploit this link when exerting control over Tibet by force in the 1950s And despite being an avowedly atheist regime with the exception of the Cultural Revolution the Chinese communist government has continued to recognize and support many elements of

Tibetan religious if not political culture Tuttle's study explores the role of Buddhism in the formation of modern China and its relationship to Tibet through the lives of Tibetan and Chinese Buddhists and politicians and by drawing on previously unexamined archival and governmental materials as well as personal memoirs of Chinese politicians and Buddhist monks and ephemera from religious ceremonies *The Dragon in the Land of Snows* Tsering Shakya, 1999 A history of modern Tibet discussing the efforts of Tibetan leaders to maintain the country's independence in the face of increasing political pressures

Modern Tibetan Literature and Social Change Luran R. Hartley, Patricia Schiaffini-Vedani, 2008-07-16 The first systematic and detailed overview of modern Tibetan literature *Tibetan Medicine in Contemporary Tibet* Tibet Information Network, 2004 This book examines the social political and economic issues that are impacting the use availability and production of Tibetan medicine as well as the cultural identity associated with Tibetan medicine in contemporary Tibet It fosters its future prospects as a science healing art and an affordable and available component of the health care systems at work in Tibet After a brief general introduction into Tibetan medical tradition the book sketches its history with particular reference to the founding of medical institutions in historical Tibet and how these institutions have changed since the 1950s It then explores Tibetan medical education in its modern context with particular attention to the formation of new kinds of schools and training programmes for Tibetan medicine many of them funded by foreign NGOs A further focus of the book is on the production and commercialisation of Tibetan medicines Although the particular story of Tibetan medicine in contemporary Tibet and in the People's Republic of China PRC is less grim than other aspects of Tibet's recent political and cultural history it is a tale of contradiction dramatic change and an uncertain future **A History of Modern Tibet, Volume 3** Melvyn C. Goldstein, 2013-12-07 It is not possible to fully understand contemporary politics between China and the Dalai Lama without understanding what happened in the 1950s The third volume in Melvyn Goldstein's History of Modern Tibet series *The Calm before the Storm* examines the critical years of 1955 through 1957 During this period the Preparatory Committee for a Tibet Autonomous Region was inaugurated in Lhasa and a major Tibetan uprising occurred in Sichuan Province Jenkhentsisum a Tibetan anti communist migr group emerged as an important player with secret links to Indian Intelligence the Dalai Lama's Lord Chamberlain the United States and Taiwan And in Tibet Fan Ming the acting head of the CCP's office in Lhasa launched the Great Expansion which recruited many thousands of Han Cadres to Lhasa in preparation for beginning democratic reforms only to be stopped decisively by Mao Zedong's Great Contraction which sent them back to China and ended talk of reforms in Tibet for the foreseeable future In Volume III Goldstein draws on never before seen Chinese government documents published and unpublished memoirs and diaries and invaluable in depth interviews with important Chinese and Tibetan participants including the Dalai Lama to offer a new level of insight into the events and principal players of the time Goldstein corrects factual errors and misleading stereotypes in the history and uncovers heretofore unknown information on the period to reveal in depth a nuanced portrait of Sino Tibetan relations that goes far

beyond anything previously imagined *A History of Modern Tibet, Volume 4* Melvyn C. Contemporary Developments in Tibet: Juxtaposition with International Human Rights Law Jha Pranav Kumar, 2024-05-21 This handbook has been specially crafted by keeping in mind the needs of researchers who are not from a legal background and are working on the human rights situation in Tibet An academic from any social science discipline will have a perspective on human rights which is a testament to the depth and width of the field The legal perspective however gives gravitas to assertions and arguments since it illuminates the obligations and duties that States and International actors are bound by Even though there is a wealth of information readily available on the internet about the law wading through the sheer volume of the material can prove to be an uphill task To address these concerns this handbook offers a comprehensive view of the most fundamental human rights paradigms applicable to the current situation in Tibet It is an endeavour therefore that the handbook can be appropriated and read by both researchers and layperson
