tomorrow *The Moderns* Steven Heller, Greg D'Onofrio, 2017-09-19 In *The Moderns* we meet the men and women who invented and shaped Midcentury Modern graphic design in America. The book is made up of generously illustrated profiles, many based on interviews of more than 60 designers whose magazine book and record covers, advertisements, and package designs, posters, and other projects created the visual aesthetics of postwar modernity. Some were migrants from Europe; others were homegrown. All were intoxicated by elemental typography, primary colors, photography, and geometric or biomorphic forms. Some are well known; others are honored in this volume for the first time, and together they comprised a movement that changed our design world.
