**Ethical Choices in Contemporary Medicine** Mary Ann Gardell Cutter, Raphael Sassower, 2014-12-05 Ethical Choices in Contemporary Medicine jettisons the standard medical ethics models of rights language and shows how the bioethical problems that receive attention from the media and the public are related to and are explicable in terms of the epistemological foundations of science and medicine These epistemological concerns include how medical knowledge is established scientific validity how medical protocols are administered checks and balances how medical certainty is evaluated probability and medical responsibility is framed personal or collective and how medical knowledge is transmitted popular media versus professional journals and how medical care is allocated insurance policies and government subsidies The book examines the present predicaments of medicine within a broad cultural context and suggests that rational discourse and parochial ethical dialogue may be futile in the face of competing and incommensurable frameworks and agendas attitudes and wishes The authors show that in the postmodern age two interrelated issues surface when it comes to medicine On the one hand there is a strong critique of science and the privileges associated with the scientific discourse and on the other there is still a deep seated quest for certainty in all medical matters

Stenberg, 2013-03-14 The intense fervor of a Mississippi Methodist preacher the meticulous reasoning of an Oxford logician the dogged persistence of a headlongshoreman the unflagging humor of a Rabelaisian satirist To have met Paul Ramsey at a lecture in a medical university a heady conference at Hastings on Hudson a congressional hearing deliberations at a church assembly or a bull session in some coffee shop was to be confronted with a gentleman of unforgettable energy insight and delight In many roles as a young instructor in religious studies at Princeton University a concerned moral theologian commenting on the ethics of the sit ins and nuclear issues an observer and dialogue partner with physicians at Georgetown and other medical centers a faithful editor and analyst of Jonathan Edwards ethical writings a trustee of the Hastings center a voluminous correspondent with others who would join to disciplined pursuit of values Paul Ramsey in all roles was indefatigable in zeal rigorous in demand and gracious in coadventuring to use one of his wonderful metaphors This volume captures a unique exchange between Paul Ramsey and his most prominent colleagues In one sense it remains a Festschrift in his honor characterized at times by a markedly informal tone
