International Business Review, 2001 **Dynamic Strategic Resources** Michael A. Hitt, 1999-11-15 Since the early 1980s it has been recognized that a firm s resources capabilities and competencies help it gain a competitive advantage that in turn produces higher performance This resource based view of the firm has been an important development in the field of strategic management It explains why some organizations perform better than others and shows that leveraging both tangible and intangible resources is necessary to gain a sustainable competitive advantage Bringing together contributions from multiple perspectives this book examines the management of strategic resources First the book discusses resource strategy and firm performance how resources lead to competitive advantage and how firm resources interplay with the firm strategy to produce specific outcomes Second it addresses the development commitment and governance of firm resources how firms develop critical resources including the especially difficult development of intangible resources such as tacit knowledge internal networks and the creation of new intellectual capital Finally attention is focused on the problems involved in the transfer of resources and skills in cooperative strategies such as strategic alliances and the allocation of resources to produce innovation The resource based view of the firm is a valuable way of analyzing and understanding firm strategies and performance The contributions in this book provide an important in depth view of how strategic resources can be developed and leveraged to create value in organizations

International Business Review European International Business Academy, 2004 **Knowledge Creation, Diffusion, and Use in Innovation Networks and Knowledge Clusters** Elias G. Carayannis, David Campbell, 2006 In the 21st century intangible resources such as knowledge and social capital have become as necessary to the modern economy as coal diamonds and oil were to the past

This shift from product focused to service focused economies necessitates a drastic re thinking of the ways in which we support the mission and business of economic development on a global regional and national scale In order to effect and sustain a positive change innovation and knowledge networks need to be connected to every aspect of life from the private and domestic to the corporate and the global This book integrates a wide variety of perspectives and treatises on mutually adaptive and complementary processes of knowledge generation diffusion and transfer within organizations and industry addressing both the what and how to questions of knowledge management in a conceptual as well as an applied manner It should be of strong interest to science and technology policy makers research and development managers business decision makers and students of innovation and knowledge dynamics alike

Transformational CEOs Kimio Kase, Francisco J. Sáez-Martinez, Hernán Riquelme, 2005 Transformational CEOs questions why some Japanese firms succeeded in the 1990s despite an economy that failed regardless of the burst of the bubble economy a number of Japanese companies have maintained or extended their international leadership in particular sectors The authors argue that whilst some of the reasons for successes are plain common sense operational effectiveness and superior CEO leadership some are Japan specific and point to a break with traditional leadership rationale Presenting four in depth case studies the book shows that newly appointed foreign managers and overseas trained Japanese managers have been instrumental in the success of these corporations and have re written the rulebook on Japanese management The behaviour patterns and cognitive processes of successful CEOs in Japanese companies Nissan and Sony being the most well known are examined From these studies two different but equally successful leadership approaches have emerged the Proto Image of the Firm PIF and Profit Arithmetic PA The first involves supporting a business decision by comparing business proposals with the CEO s image of the firm whilst the second focuses on processing data and information through a mental model that enables identification of profit levers Providing lessons in leadership and concluding that transformational leadership requires a choice between two types of mindset PIF and PA this book will be invaluable to academics business consultants managers and executives with an interest in strategic management and leadership Scholars of Asian studies will also find the book to be a fascinating read

The Impact of Cultural Differences on Cross-border Merger Processes Romy Trajanov, 2008 Nowadays due to the fierce global competition cross border mergers are a well known strategic option for companies to become global players There fore internationally merging companies have to deal with the issue of cultural differences as both partners bring different national and corporate cultures into the new formed corporation Geert Hofstede s and Fons Trompenaars cultural studies provide the basis for a comparison of national and organizational cultural diversity between German and American people These cultural differences have to be considered during the post merger implementation process as only compatible organisational cultures lead to successful mergers Employees are at a great extent responsible for a merger s success The DaimlerChrysler merger created one of the biggest automobile manufacturers in the world and changed the face of the automobile industry This

merger represents the complexity of resulting merger failures if the cultural impact will be underestimated Managers have to learn to create global organisations with shared values and purposes while also take into account national differences of the organisation members The DaimlerChrysler merger provides a reference case for any international merger in the future
