*Contested Terrain* R. Edwards, 1985      *Contested Terrain* D. A. Gray, 2017-10 *CONTESTED TERRAIN* captures the myriad identities inside a veteran shaped by birth geography and later a set of experiences that belie any hand me down wisdom Cave Country sees the green fertile surface give way as the illusion collapses beneath the speaker's feet in Desert Skies a barrage of war images hit faster than the speaker can process them and Returning to the Hill Country shows the altered landscape both physical and mental that awaits his return The final section A Handful of Dust shifts from the individual to the culture of fear that has become a new uncomfortable normal Gray's speakers still believe that beauty exists often in an uneasy coexistence with tension hypervigilance and an ever changing consciousness      **Contested Terrain** Richard Edwards, 1979-04-19 USA Monograph on the nature of management control over the working class through capitalist work organization illustrates with historical case studies the failure to establish workers self management and social implications of automatic control monopoly personnel management bureaucracy social conflict etc Argues that supervisory hierarchy is intrinsic to profitability economic doctrine and discusses political aspects of trade union structure and labour market segmentation Bibliography pp 244 to 252 graphs and statistical tables      *Contested Terrain* Philip G. Terrie, 2008-06-27 *Contested Terrain* explores the competing understandings of how best to manage this spectacular natural resource Terrie introduces the key players and events that have shaped the region and its use from early settlers and loggers to preservationists year round residents and developers This new edition includes a comprehensive account of the Pataki years an era of stunning conservation triumphs combined with unprecedented pressures on the region's ecological integrity

*Contested Terrain* Richard Edwards, 1979      **On Contested Terrain** Dan Leers, Lisa Sutcliffe, 2020 *An My L On Contested Terrain* Copublished by Aperture and Carnegie Museum of Art      *A contested terrain : struggle through culture* Keyan G. Tomaselli,      **Seven Social Movements That Changed America** Linda Gordon, 2025-03-04 A brilliantly conceived and provocative work from an award winning historian that examines how seven twentieth century social movements transformed America How do social movements arise wield power and bring about meaningful change Renowned scholar Linda Gordon investigates these and other salient questions in this visionary cautionary timely and utterly necessary book Nicole Eustace narrating how some of America's most influential twentieth century social movements transformed the nation Beginning with the turn of the century settlement house movement the book compares Chicago's celebrated Hull House begun by privileged women to a much less well known African American project Cleveland's Phillis Wheatley House begun by a former sharecropper Expanding her highly praised book *The Second Coming of the KKK* the second chapter shows how a northern Klan became a mass movement in the 1920s Contrary to what many Klan opponents thought this KKK was a middle class organization its members primarily urban and well educated In the 1930s the KKK gave birth to dozens of American fascist groups small but extremely violent Profiles of two other 1930s movements follow the Townsend campaign

for old age insurance named for its charismatic leader Dr Francis Townsend It created the public pressure that brought us Social Security which was considered radical at the time as was the movement to bring about federal unemployment aid for millions Proceeding to the 1955 1956 Montgomery bus boycott which jump started the career of Martin Luther King Jr the narrative shows how the city s entire Black population refused to ride segregated buses initiated by Black women their years long hard fought victory inspired the civil rights movement Gordon then examines the 1970s farmworkers struggle led by Cesar Chavez and made possible by the work of tens of thousands of the primarily Mexican American farmworkers Together they built the United Farm Workers Union winning better wages and working conditions for some of the country s poorest workers The book concludes with the dramatic stories of two Boston socialist feminist groups Bread and Roses and the Combahee River Collective which influenced the whole women s liberation movement Throughout the work Gordon concentrates not on ideologies but on how millions of grassroots activists strategized and changed the United States Separately and together these seven narratives bring to life the creativity and hard work of social movements and in doing so reveal how they have been central to American history in stories that reverberate with today s political activism Out of Play Michael A. Messner,2010-03-25 2008 CHOICE Outstanding Academic Title From beer ads in the Sports Illustrated swimsuit issue to four year old boys and girls playing soccer from male athletes sexual violence against women to homophobia and racism in sport Out of Play analyzes connections between gender and sport from the 1980s to the present The book illuminates a wide range of contemporary issues in popular culture children s sports and women s and men s college and professional sports Each chapter is preceded by a short introduction that lays out the context in which the piece was written Drawing on his own memories as a former athlete informal observations of his children s sports activities and more formal research such as life history interviews with athletes and content analyses of sports media Michael A Messner presents a multifaceted picture of gender constructed through an array of personalities institutions cultural symbols and everyday interactions **Crown Jewel Wilderness** Lauren Danner,2021-06-18 Remote rugged and spectacularly majestic with stunning alpine meadows and jagged peaks that soar beyond ten thousand feet North Cascades National Park is one of the Pacific Northwest s crown jewels Now in the first full length account Lauren Danner chronicles its creation just in time for the park s fiftieth anniversary in 2018 The North Cascades range benefited from geographic isolation that shielded its mountains from extensive resource extraction and development Efforts to establish a park began as early as 1892 but gained traction after World War II as economic affluence sparked national interest in wilderness preservation and growing concerns about the impact of harvesting timber to meet escalating postwar housing demands As the environmental movement matured a 1950s Glacier Peak study mobilized conservationists to seek establishment of a national park that prioritized wilderness Concerned about the National Park Service s policy favoring development for tourism and the United States Forest Service s policy promoting logging in the national forests conservationists leveraged a changing political environment and the evolving

environmental values of the natural resource agencies to achieve the goal of permanent wilderness protection Their grassroots activism became increasingly sophisticated eventually leading to the compromise that resulted in the 1968 creation of Washington's magnificent third national park

*Sports Mega-Events in Asia* Koji Kobayashi, John Horne, Younghan Cho, Jung Woo Lee, 2023-06-20 This book is the first comprehensive collection focusing on the hosting of sports mega events within Asia and their impact on the politics economics and culture that shape and are shaped by the local idiosyncrasies of host cities and countries across this most culturally diverse continent From the Olympic Games and single sport World Cups to the Asian Games and their sub regional variations an increasing number of Asian countries have rapidly developed their capacity to host and mobilize large scale sports events as a cornerstone of their economic growth national identity formation and international prestige This book sets out to fill a gap in the literature and will be of particular relevance to those who are interested in globalization sports studies political economy cultural studies event management and policy sociology media studies and Asian studies

**Contested terrain** Richard C. Edwards, 1979 *Contested Terrain* Sharyn Rohlfen Udall, 1996 The Southwest has long beckoned the artist But too often art made by Euro Americans drawn to this region has either basked in the sunny celebration of the picturesque the exotic and the sentimental or appropriated the myths and art of Native Americans In this collection of essays Sharyn R Udall explores the work of some of the painters who have found stimulus in the ideas people and myths of the Southwest among them Georgia O Keeffe Marsden Hartley Page Allen and Woody Gwyn They saw the Southwest in new ways drawing inspiration from the very light and topography of the region Udall's goal is to open and enlarge the discussion by rejecting the neat circumscribed way of seeing common to traditional art history Thus she declares one is able to encourage a fresh look at these painters and their work and at the larger relationships of nature and culture in the Southwest

**CONTESTED TERRAIN : THE TRANSFORMATION OF THE WORKPLACE IN THE 20. CENTURY.** Richard Edwards, 1979 **The Lesser Gods of the Sahara** Jeremy Keenan, 2004-08-02 The eight essays that comprise this collection cover various aspects of social change and contested terrain amongst the Tuareg people Algeria

*American Labor History Made Easy!* Eric Leif Davin, 2009 A brief history of American workers from 1800 2000 Not primarily an institutional history that is a history of unions although unions figure prominently where appropriate For the most part this is about the lives of ordinary workers people like you and me and how they struggled to build better lives for themselves in changing and often hostile circumstances Dr Eric Leif Davin has taught labor history at the University of Pittsburgh for more than 20 years and won the Eugene V Debs Award for his writing on labor history

**The Contested Plains** Elliott West, 1998 Deftly retracing a pivotal chapter in one of America's most dramatic stories Elliott West chronicles the struggles triumphs and defeats of both Indians and whites as they pursued their clashing dreams of greatness in the heart of the continent

**Century of the Leisured Masses** David George Surdam, 2015 American living standards improved considerably between 1900 and 2000 While most observers focus on gains in per capita

income as a measure of economic well being economists have used other measures of well being height weight and longevity The increased amount of leisure time per week and across people s lifetimes however has been an unsung aspect of the improved standard of living in America In *Century of the Leisured Masses* David George Surdam explores the growing presence of leisure activities in Americans lives and how this development came out throughout the twentieth century Most Americans have gone from working fifty five or more hours per week to working fewer than forty although many Americans at the top rungs of the economic ladder continue to work long hours Not only do more Americans have more time to devote to other activities they are able to enjoy higher quality leisure New forms of leisure have given Americans more choices better quality and greater convenience For instance in addition to producing music themselves they can now listen to the most talented musicians when and where they want Television began as black and white on small screens within fifty years Americans had a cast of dozens of channels to choose from They could also purchase favorite shows and movies to watch at their convenience Even Americans with low incomes enjoyed television and other new forms of leisure This growth of leisure resulted from a combination of growing productivity better health and technology American workers became more productive and chose to spend their improved productivity and higher wages by consuming more taking more time off and enjoying better working conditions By century s end relatively few Americans were engaged in arduous dangerous and stultifying occupations The reign of tyranny on the shop floor in retail shops and in offices was mitigated many Americans could even enjoy leisure activities during work hours Failure to consider the gains in leisure time and leisure consumption understates the gains in American living standards With *Century of the Leisured Masses* Surdam has comprehensively documented and examined the developments in this important marker of well being throughout the past century

*Policy Research in Educational Settings* Jenny Ozga, 1999-11-16 This book argues for independent critical research on education policy in the context of attacks on the quality and usefulness of educational research in general It takes issue with the argument promoted by government departments and agencies that education policy research should be limited to work that assists policy makers Against this position the book advocates independent critical research that scrutinizes policy in relation to its consequences for equality and social justice It argues that practitioners and academic researchers should form a research community that develops its own knowledge base from which so called evidence based policymaking in education may be assessed and challenged The book offers guidance on the theoretical and methodological resources available to practitioners and others with an interest in doing research on policy and discusses some of the main issues and problems in doing policy research on education It offers examples of research on policy at different system levels pursuing themes such as globalization changing governance of education selection choice and exclusion managerialism and the feminisation of educational management It argues for attention to the history of policy in education as a resource for understanding the present and concludes with recommendations for future research in areas where contestation of official agendas is needed

**Contested Terrain: Nature Writing and the Shaping of American Culture** Thomas Brian Hardman, 2006

Contested Terrain: Nature Writing and the Shaping of American Culture examines the connections among American literature, the American environment, and nationalism. In particular, it is an exploration of what the land has meant to Americans, especially from the period of early nationhood through the nineteenth century, and how it has been represented in literature. This exploration leads into the role that nature, both human and nonhuman, has played in defining America, particularly in the conjunction of wilderness and nation. The chapters discuss in some detail the physical environment encountered by early Americans; however, a great deal of the focus is on the conceptual and ideological uses of the land in creating a country known as nature's nation.
