A Thematic Access-Oriented Bibliography of Jesus's Resurrection Michael J. Alter, 2019-12-31 The keystone of Christianity is Jesus's physical bodily resurrection Present day scholars can be significantly challenged as they forage through voluminous documents on the resurrection of Jesus The literature measures well over seven thousand sources in English language books alone This makes finding specific sources that are most relevant for specific scholarly purposes an arduous task Even when a specific book is relevant finding the parts of the book that are most relevant to the resurrection rather than other topics often requires additional effort A Thematic Access Oriented Bibliography of Jesus's Resurrection addresses these challenges in several ways First the bibliography organizes more than seven thousand English sources into twelve main categories and then thirty four subcategories which are designed to help you find the most relevant literature quickly and efficiently Embedded are pro and con arguments which support efficient access through brief annotations and then annotate the diversity and complexity of the field of religion by including sources that represent a diverse range of views theistic e.g Christian Jewish Muslim etc agnostic and nontheistic The objective of this bibliography is to provide convenient access to relevant sources from a variety of perspectives allowing you to browse or find the one source accurately and with ease

no practical steps on how ecumenically minded Christians can more effectively address the spiritual and theological concerns of those who are seeking refuge from the fundamentalist worldview especially within the context of the United States This work will focus on the problem of how ecumenically minded Christians could more effectively address the spiritual and theological concerns of former fundamentalists in the United States especially when dealing with the different cultural theological topics of biblical inerrancy and eschatology Since evangelicals closely resemble fundamentalists in doctrine and practice the author will approach this task by conducting a textual analysis of the documents that came out of some of the official bilateral dialogues between evangelical and non evangelical groups in hopes that the results of these documents will offer some clues as to how to improve relations between former fundamentalists and ecumenically minded Christians especially when it comes to dealing with the aforementioned theological issues
