Democratic Governance Mark Bevir, 2010-04-26 Democratic Governance examines the changing nature of the modern state and reveals the dangers these changes pose to democracy Mark Bevir shows how new ideas about governance have gradually displaced old style notions of government in Britain and around the world Policymakers cling to outdated concepts of representative government while at the same time placing ever more faith in expertise markets and networks Democracy exhibits blurred lines of accountability and declining legitimacy Bevir explores how new theories of governance undermined traditional government in the twentieth century Politicians responded by erecting great bureaucracies increasingly relying on policy expertise and abstract notions of citizenship and more recently on networks of quasi governmental and private organizations to deliver services using market oriented techniques Today the state is an unwieldy edifice of nineteenth century government buttressed by a sprawling substructure devoted to the very different idea of governance and democracy has suffered In Democratic Governance Bevir takes a comprehensive look at governance and the history and thinking behind it He provides in depth case studies of constitutional reform judicial reform joined up government and police reform He argues that the best hope for democratic renewal lies in more interpretive styles of expertise dialogic forms of policymaking and more diverse avenues for public participation

UK Election Law Bob Watt,2020-11-25 This book contains a critical analysis of the law and politics governing the conduct of statutory elections in the United Kingdom The author argues that elections have now become a marketplace for buying the most seemingly attractive political party on offer into power rather than an expression of democratic self government Thematically arranged he considers a number of issues dating from before the Civil War through nineteenth century reforms to the foundation of the Electoral Commission and up to their paper Securing the Vote published in 2005 The book Framing the debate for the Electoral Administration Bill 2005 it contains amongst other legal analysis analyses leading cases including Sanders v ChichesterR v JonesR v Whicher ex parte MainwaringIn re Fermanagh and South Tyrone The author presents an argument for a radical reappraisal of election law which involves rather than excludes the self governing citizenry suggesting that election law perhaps above all other kinds of law should be the subject of vigorous and open public debate

New Statesman ,2002-04

New Labour and the Civil Service David Richards,2008 The first serious study analysing Labour s impact on Whitehall It offers a theoretical engaged but empirically rich account drawing from an extensive set of primary interview material to examine a New Labour effect on the Civil Service including its reforms to improve policy delivery and whether it has politicised Whitehall It concludes by arguing that New Labour s approach to Whitehall have been part of a broader strategy to reconstitute the power of the Westminster Model

The Partisan Press Si Sheppard,2007-11-19 This book is the first to place the contemporary debate over media bias in historical context illustrating how partisan bias in the American media has built political parties set the stage for several wars and even contributed to the rise and fall of U S presidents The author discusses the rise of the unprecedented post World War II model of objective journalism and explains why this model is breaking down under the challenge of a new generation of technology driven partisan media alternatives

Morality Tales María José Canel,Karen Sanders,2006 Taking political scandal as the entry point this book presents a

study of comparative political communication It explores themes such as how and why journalists construct their scandal stories what kind of narratives were told the impact of political scandal and what this reveals about the influence of the press

What the Media are Doing to Our Politics John Lloyd,2004 Nothing more grimly highlights the terrible state of relations between the British press and the Government than the autumn 2003 Hutton Inquiry into the tragic death of weapons expert David Kelly Indeed as John Lloyd argues in this timely and deeply controversial book the media are now no longer functioning as an inquiring check on the excesses of the political class Instead they have become an alternative establishment one supremely dedicated to a theatrical distrust of individual politicians and a furious and calculated indifference to the real life intricacies of world policy making That the media have emerged today as a powerful and largely unaccountable force in British public life is undeniable But here Lloyd takes things further and puts forward the case persuasively and aggressively that the composition and background of the media elite and the growing emphasis on profit in the companies for which they work have created an idol that takes as its sacrifice justice and balance and deprives the public of the information they need in order to act as responsible citizens Choice ,2001 **Britain at the Polls, 2001** Anthony King,2002 Finally voter turnout in 2001 was at a record low and this fact alone marks out the 2001 election from every other general election since the war **Forthcoming Books** Rose Arny,2001-06 *Democratic Experiments* ,2006 Includes the following lectures Australia s representation gap a role for parliamentary committees Independents in the Federal parliament a new challenge or a passing phase **A Land Fit for Criminals** David Fraser,2006 In this meticulously researched and passionately argued study of the contemporary British justice system David Fraser offers a sobering indictment of post war British governments who have not only overseen but also fostered this spectacular and terrifying rise in crime Almost without exception governments and the civil servants and academics who abet them have sought to persuade us that criminals are victims of society and that they are best rehabilitated within the community rather than punished inside prisons So pervasive has this anti prison propaganda now become that few of whatever political complexion are now prepared to question its truth However as David Fraser cogently argues community supervision and probation orders have simply left criminals free to reoffend while the criminal justice system s near obsession with the well being of criminals has come to override its concern for their victims whose interests and sufferings are callously ignored BOOK JACKET **Britain's Modernised Civil Service** June Burnham,Robert Pyper,2008-02-18 This introduction to the historical development nature organisation and role of the British Civil Service provides an insight into the importance of a key institution which lies at the heart of the system of government and politics Communicating Politics in the Twenty-First Century Karen Sanders,2009 Practical topical and theoretical this book takes an original look at how politics is communicated around the world by politicians governments and the media industries It features use of international examples and a broad coverage of a burgeoning area of study It presents a truly engaging and readable style From propaganda and protests to Marx and Obama this book provides an engaging look

at politics in the media Historical detail and contemporary examples are used to explore essential theory and key research in the field Topical and comprehensive this book covers everything students need to know about the global world of political communication

A Century of Spin David Miller, William Dinan, 2008 Uncovers the secret history of the PR industry This book charts the relentless rise of the public relations industry and how it has transformed our society Revealing the roots of the PR movement in the years leading up to the First World War it sh

The Transformation of Political Communication Ralph Negrine, 2008-09-10 The relationship between politics and the media is continually evolving Offering a critical historical approach this title explores the technological political and social forces that affect the practice of political communication throughout the world today
