1964 to 1968 arguably the artist's busiest and most creative period. As were the familiar superstars he made famous: superstars like Viva and Edie Sedgwick and Ultra Violet and Nico and the Velvet Underground. But what set apart our film and now distinguishes our book from the many other books about Warhol is that we also tracked down the forgotten Factory people: the remarkable and often bizarre assortment of people who were behind Warhol's unprecedented rise to spectacular success. These people often paid a price for linking their destinies to the gifted but frustrated graphic artist who decided in the early sixties to start Pop art because he hated Abstract Expressionism.

All Tomorrow's Parties Billy Name, Dave Hickey, Collier Schorr, 1997. Billy Name was the principal photographer of Andy Warhol's Factory. Now All Tomorrow's Parties reproduces for the first time Billy Name's recently discovered photos of Warhol, his crowd, and the Factory years' images that give the era another dimension. These color photos with their experimental use of weird color balances and diptych printing are uncannily contemporary. Together with Dave Hickey's essay and Collier Schorr's interview, Billy Name's photos reveal the Factory in all its intimate grunge and glamour. 135 photos, 122 in color.

Andy Warhol's "Factory People", 2013 **Andy Warhol's Factory People** Catherine O'Sullivan Shorr, 2018-09-18. Based on the television documentary A three-part oral history of the Pop Art sensation's inner circle and their dazzling world of art, drugs, and drama. Featuring a new introduction by the author, special to this collection, this three-part companion volume to Emmy Award-winning Catherine O'Sullivan Shorr's documentary Andy Warhol's Factory People is an unprecedented exposé of an exhilarating and tumultuous time in the 1960s New York City art world, told by the artists, actors, writers, musicians, and hangers-on who populated and defined the Factory. Different in its avowed bottom-up approach, Warhol as a function of his followers is the idea. This time it's the interviews that tell the tale. Robert Lloyd, Los Angeles Times. Welcome to the Silver Factory. In 1962, frustrated with advertising work, Warhol sets up his legendary studio in an abandoned hat factory on Manhattan's 47th Street. The Silver Factory quickly becomes the hub of Warhol's creative endeavors, the space where he constantly works while an ever-changing cast of characters and muses passes through with their own contributions.

Speeding into the Future. In a peak period from 1965 through 1966, Warhol creates the notion of the It Girl with ingenuous debutante Edie Sedgwick, discovers Lou Reed, the Velvet Underground, and Nico, the gorgeous chanteuse who becomes his next It Girl, and directs with Paul Morrissey his most commercially successful film, the art-house classic Chelsea Girls. Your Fifteen Minutes Are Up. By 1967, it seems that the Factory has outlived its fifteen minutes of fame. Superstars like Edie Sedgwick fall victim to drugs; Factory denizens have falling outs with Warhol, as do the Velvet Underground, who are also caught up in disputes of their own. Into the chaos comes radical feminist Valerie Solanas, who shoots Warhol and seriously injures him. He survives barely, but the artist and his art are forever changed.
