Anger As a Positive Emotion on a Bridge to Love Ren Franklin, 2019-03-28 This book answers the questions What is the real reason why people have affairs while in a committed relationship What does a relationship really mean when so many people are having affairs Can a relationship continue after an affair Why are people angry Are there new ways to address domestic violence What have I really been taught as a child to deal with adult relationships Are there any after effects of being molested as a child I should look for in a loved one Is alcoholism a disease that can be cured Many have heard about the ills of past relationships yet there are many more who have been kept secret from that in hopes to protect them from finding out the reality of relationships That leaves them to discover the good and the bad all on their own Eskimos teach whaling to their children Other cultures teach the importance of getting a good education but not many teach about having a relationship They are told about how to avoid the negative extremes of the relationship such as beatings but generally speaking people are unaware of what the actual relationship looks like prior to entering into one Society may teach how to avoid stressors and other things that make you vulnerable but while you're avoiding them how are you learning from them I say to embrace your vulnerability because then you will see what you are like when you are weak and that is when you will know how to be strong Others recognize your weaknesses more than you do and they use that to take advantage of you We teach people to avoid the struggles of life as much as you can However when you make it through those struggles you will know from each pain what to avoid in the future Struggle is what the animals learn how to survive through their battle scars If mammals in the jungle are aware what makes us mammals different In the story you will find that unfortunately a childhood friend suffered from other stressors in dealing with the poor relationship between his mother who he loved and his wife who he loved equally when the protagonist found this out he was able to develop a story that ignited the Me too and Times Up movement He also sees another friend attempt to hide his addiction and suggest the traditional way of treating this problem works well for a lot of people but it doesn't work for everyone He has another way of treating what he calls the habit The protagonist sees many people are using alcohol to escape the pain of anger and other emotions He sees them not addressing the problem deep enough but only on the surface For that reason he introduces another way of dealing with domestic violence that seems to work for some better than the traditional ways Then as members of the group discuss the meaning of the word minority and how it has changed over the years This understanding grew to a conversation that strengthened the bond of a relationship within the group but not to people you would expect Then they discuss the

parameters of love and find out what we as humans have in common with the animals and why we could learn so much from them The example is given to take a look at the aging population and how many of them have changed their ways because they are aged After all of this do we dare say that the generation prior to ours has failed us in teaching about long lasting relationships The short answer is no Our parents and grandparents could only teach what they knew and that is why the chance meeting in the park and the dinner party is essential to discuss the classifications of anger amongst this small group of adults The universal anthology, a collection of the best literature, with biographical and explanatory notes, ed. by R.
