Anglo-German Attitudes Cedric Cullingford, Harald Husemann, 1995 This book uniquely outlines the ways in which stereotypical images are formed through original empirical research and through examples in different media

*Anglo-German relations during the Labour governments 1964-70* Terry Macintyre, 2013-07-19 Speaking at West Point in 1962 Dean Acheson observed that Britain had lost an empire and had still to find a new role This book explains why in the following years as Britain's Labour government contemplated withdrawal from east of Suez ministers came to see that Britain's future role would be as a force within Europe To this end and in order to gain entry into the European Economic Community a close relationship with the Federal Republic of Germany would be essential This account of Anglo-German relations during the 1960s reveals fascinating insights into how both governments reacted to a series of complex issues and why despite differences which might have led to strains a good understanding was maintained Terry Macintyre's innovative approach brings together material covering NATO strategy and European integration making the volume fascinating and essential reading for students and enthusiasts of contemporary British and German political history This book makes an important contribution to what we know about Cold War history and should help to redefine some of the views about the relationship between Britain and Germany during the 1960s

**Sir Gerald Fitzmaurice and the World Crisis of 1930-1945** Anthony Carty, Richard A. Smith, 2021-10-25 Fitzmaurice and the World Crisis examines the impact of the legal advice of G G Fitzmaurice on the making of British Foreign Policy during the key phases of the developing World Crisis from 1932 to 1945 in relations with Japan and Germany Particular attention is given to whether relations with Germany were defined in terms of classical power politics or in a new language of the rule of law in international society The main themes highlight Fitzmaurice's contribution to the shaping of major issues and illustrate the breadth of scope in the work of the legal adviser the Manchurian Crisis Anglo-German relations in the 1930s the concluding of the Anglo-Polish Treaty of 1939 economic warfare and the laws of war at sea 1939-43 debate surrounding the nature of Germany's surrender and the drafting of armistice terms The book breaks new ground with respect to the basic technical crafts of the international lawyer It shows how the skills of the diplomatic historian working with unpublished Foreign Office archives are essential to unravelling the true legal practice of a state as an element in the evolution of customary international law The aim is not simply to unearth and present in a minimally edited form the legal opinions of Fitzmaurice but also to assess his impact within the Foreign Office It

concludes that the role of the individual international lawyer in government institutions is potentially very significant. However his influence depends not simply on the stubbornness with which he holds onto his professional expertise but also on his moral vision and sensitivity towards the complexities of the context in which he has the potential to shape events.

**The Attitude of England Towards German Unification** Carol Fales Hayden, 1927 *Anglo-German Attitudes - how Do We See Each Other?* Dinah Ballance, 1992-01-01 [The Anglo-German Intervention in Venezuela, 1902-03](#) Wayne Lee Guthrie, 1983 [British Images of Germany](#) R. Scully, 2012-10-30 British Images of Germany is the first full length cultural history of Britain's relationship with Germany in the key period leading up to the First World War. Richard Scully reassesses what is imagined to be a fraught relationship illuminating the sense of kinship Britons felt for Germany even in times of diplomatic tension. *Made in Germany - A Proof of Technical Perfection. Stereotypes of Germans in British Advertising* Cornelia Neumann, 2007-09 The British attitude towards Germany seems to be ambiguous. There are still many World War II movies on television, there are serious newspaper articles and hostile tabloid cartoons, unfriendly governmental memos and last but not least advertising. The people dealing with this issue are of different political backgrounds, therefore they have contradictory intentions and express either friendly or hostile opinions. Nevertheless, certain stereotypes of Germans are recurrent regardless of which attitude is represented. The two following lists of German attributes have only recently been compiled. The first one is the result of the Chequers Conference in March 1990 when Margaret Thatcher discussed the aspects of German reunification with some confidence. The Conference's consensus on eternal German characteristics was insensitivity to the feeling of others, aggressiveness, assertiveness, bullying, egotism. The memo was not designed to be published, therefore one can assume that the participants spoke frankly. Several other German features can be found in a poll in which students were asked about national characteristics. According to the majority, Germans are orderly, disciplined, organised, efficient, obedient to rules, inflexible, punctual, hard working, laborious, and ambitious, arrogant, particularly in intellectual matters, complex, difficult to understand, Angst ridden. My paper will focus on the occurrence of several of these images in advertising, especially in four campaigns released between 1993 and 1997. Three of them deal with German products promoted for German consumers. One of them deals with a British product for the British market but refers to Anglo-German conflict in order to tell its story. We will see that especially the stereotypical German virtues as mentioned above are applied in order to emphasise the value of the goods. In contrast, one example shows how negative images are used to show British superiority. publisher's website **British Documents on the Origins of the War, 1898-1914: The end of British isolation - v.2.
