

Animal Farm seems really
by George Orwell

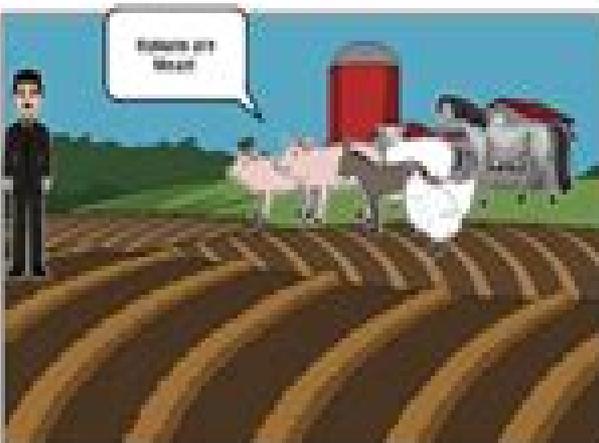

Book Review

At the start of the story, Old Major gathers up all the animals on Manor Farm, and encourages and inspires the animals to rebel against Mr. Jones (their farmer), and Major dies before he could finish his plan, and it's up to the rest of the animals to create. Napoleon and Snowball are the pigs that want to continue his work, and give to be the chief of the farm. The animals see relations their personal form of government.

One of the major arguments showed in the story is the conflict between Snowball and Napoleon to lead the farm. Their competition created some sort of tension, and it got Napoleon thinking of what he should do in rid of snowball and end up leader.

A struggle provided during the tale is among the animals and human beings. The animals sought to riot against the human running the farm. They believed that all humans were awful, and that they ought to no longer be under their rule.

The pigs felt as though they were superior, and that they should rule everything with regards to the farm. A conflict that had occurred was among the animals of the farm and the pigs. This struggle triggered the farm to pretty much turn to chaos in the end, and the animals operating till they could not anymore.

The climax of Animal Farm is reached whenever Napoleon chases Snowball far from the farm along with his trained dogs. Napoleon announces that the pigs will be the only ones that can make decisions for the farm. They're the ones which are superior, or in power.
