We Are Music: An Existential Journey Toward Infinity John Stephen Sharpley, 2024-02-15 What is music Modern society has come to view music largely as entertainment and commodity In response We Are Music An Existential Journey Toward Infinity provides the reader with a holistic starting point Music has unlimited potential to transform and enlighten and is only impeded when bound by materialism physicalism and reductionism We Are Music is an attempt to bring music back to the core of humanity as an agent of positive empowerment self actualization and beyond Embracing interconnectivity music is more deeply experienced alongside the arts science social sciences math philosophy history and above all spirituality An endless spiral self perception and identity can be vastly expanded if not questioned and transcended Music is an infinite field and any attempt to define and describe it is problematically finite and consequently limited Herein lies the impossibility of the book which both excites and disturbs the paradox of being and not being A roadmap for music lovers toward self realization We Are Music is for those who desire to delve deeper into the power and illusion of self through music

Music Preferred Lorraine Byrne Bodley, 2018-05-28 The contributions to this Festschrift honouring the distinguished Irish musicologist Harry White on his sixtieth birthday have wide repercussions and span a broad timeframe But for all its variety this volume is built around two axes on the one hand attention is focussed on the history of music and literature in Ireland and the British Isles and on the other topics of the

German and Austrian musical past In both cases it reflects the particular interest of a scholar whose playful sometimes unconventional way of approaching his subject is so refreshing and time and again leads to innovative surprising insights It also reflects a scholar who for all the broadening of his perspectives that has taken place over the years has always adhered to the strands of his scholarly preoccupations that have become dear to him the music of the Austro Italian Baroque and Irish musical culture first and foremost An international cast of authors announces the sustaining influence of Harry White s wide ranging research Professor Dr Thomas Hochradner Chair of the Department of Musicology University of Music and Dramatic Arts Mozarteum Salzburg

Teaching Music Performance in Higher Education Helen Julia Minors, Stefan Östersjö, Gilvano Dalagna, Jorge Salgado Correia, 2024-05-27

Higher Music Performance Education as taught and learned in universities and conservatoires in Europe is undergoing transformation Since the nineteenth century the master apprentice pedagogical model has dominated creating a learning environment that emphasises the development of technical skills rather than critical and creative faculties This book contributes to the renewal of this field by being the first to address the potential of artistic research in developing student centred approaches and greater student autonomy This potential is demonstrated in chapters illustrating artistic research projects that are embedded within higher music education courses across Europe with examples ranging from instrumental tuition and ensemble work to the development of professional employability skills and inclusive practices Bringing together diverse and experienced voices working within Higher Music Education but often also as professional performers this edited collection pairs critical reflection with artistic insight to present new approaches to curricula for teaching interpretation and performance It calls for greater collaboration between Higher Education and professional music institutions to create closer bonds with music industries and thereby improve students career opportunities Teaching Music Performance in Higher Education will appeal to scholars performers teachers but also students whose interests centre on innovative practices in conservatoires and music departments
